

## MITCHELL COURT MARTIAL NOW STUDIES GAS

DROPS FOR A  
TIME PROBING  
OF SHENANDOAH

WONDERS HOW MUCH GAS IT  
WOULD TAKE TO EVACUATE  
DISTRICT OF COLUMBIA

GEN. DRUM SAID IT WOULD TAKE  
2,000 AIRPLANES TO DELIVER  
THE GAS

By WILLIAM J. McEVROY  
(United Press Staff Correspondent)  
Washington, Nov. 13.—Dropping  
for the moment the inquiry into al-  
leged irregularities in connection  
with the testimony of Mrs. Margaret  
Ross Lansdowne at the investigation  
of the dirigible Shenandoah disaster,  
the court martial trying Colonel  
Billy Mitchell for alleged insubord-  
ination today studied how much gas  
it would take to force evacuation of  
an area the size of the District of  
Columbia.

This line of inquiry was taken up  
after an unsuccessful effort had been  
made by the prosecution to strike  
from the records the testimony of  
Mrs. Lansdowne, widow of the Shen-  
andoah's dead commander.

Brigadier General Hugh Drum, as-  
sistant chief of staff, precipitated  
the gas controversy in testimony be-  
fore the president's special air board  
by declaring it would take vast  
quantities to force evacuation. His  
estimates have been disputed fre-  
quently by witnesses at the court  
martial.

Colonel J. Edward Cassidy, chem-  
ical warfare reserve officer and con-  
sulting engineer of Washington, re-  
garded as the "ranking" chemical  
warfare service officer in the United  
States, was the first witness called.  
"General Drum said it would take  
3,439,150 pounds of mustard gas to  
gas the District of Columbia, or 9-  
573,850 pounds to force its evacua-  
tion," said Reid. "Is that correct?"  
"Absolutely not," was the answer.  
"General Drum said it would take  
2,000 planes to deliver this gas,"  
Reid said. "Is that true?"  
"No, sir."

Under cross questioning, however,  
Cassidy admitted that "There is no  
such thing as determining how much  
gas it would take to gas a given  
area."

Moreland also forced from Cassidy  
an admission that Drum probably  
had testified correctly so far as fig-  
ures given in an approved army  
engineering manual were concerned.  
"But his statements are not cor-  
rect," Cassidy added.

Washington, Nov. 13.—Prosecution  
leaders in the Mitchell court martial  
today took up the question of an-  
swering the charges of Mrs. Zachary  
Lansdowne, widow of the Shenandoah  
commander, who accused Cap-  
tain Paul Foley, judge advocate of  
the naval court, investigating the  
dirigible disaster, with attempting  
to influence her testimony.

Colonel Sherman Moreland, the  
prosecutor for the jury of generals  
trying the Texas air colonel on  
charges of insubordination, said he  
would decide later whether to call  
Foley and Mrs. George W. Steele,  
wife of the Lakehurst, N. J., air sta-  
tion commander, who Mrs. Lan-  
sdowne said, delivered a memorandum  
from Foley. The memorandum sug-  
gested Mrs. Lansdowne testify that  
her husband was willing to take his  
airship, the Shenandoah, "anywhere,  
any time and under any weather  
conditions."

Foley told the United Press today  
he had asked to appear before the  
Mitchell court and that the war de-  
partment counsel had assured him  
he would be summoned as soon as  
Mitchell finished presenting his tes-  
timony.

Mrs. Lansdowne's charge came as  
a bombshell in the navy department,  
where officials today refused to com-  
ment in anyway on expected develop-  
ments or a possible counter offensive.

Mrs. Lansdowne also told of a visit  
to her by Foley two days before the  
Shenandoah court convened in which  
she said Foley tried to get her to re-  
hearse the story she intended to tell  
the inquiry. She refused, she said,  
advising him merely that it was her  
purpose to show that the Shenandoah  
was sent westward to her doom  
and the resultant deaths of her hus-  
band and 13 members of the crew  
"on a political flight."

When court opened today a mo-  
tion to strike out the testimony of  
Mrs. Lansdowne was made by Colonel  
Sherman Moreland, trial judge ad-  
vocate.

The attempt to expunge the sen-  
sational testimony of the widow of  
the Shenandoah commander failed,  
however, when the court of generals  
overruled the motion after a spirited  
argument between opposing counsel  
and a 10 minutes' secret session of  
the court.

## Minn. U. Greatest Homecoming Program in Years

U. S. NOW TAKES  
UP REFUNDING  
RUMANIA'S DEBT

Washington, Nov. 13.—(UP)—  
With Italy's war debt to the  
United States funded, the Amer-  
ican debt commission today took  
up negotiations with Rumania's  
debt commission for settlement of  
that nation's \$16,500,000 obliga-  
tion.

Funding agreements with 11 of  
the 20 nations who borrowed from  
this country during and after the  
war have now been effected.  
The Italian payments start im-  
mediately upon signature of the  
contract tomorrow at \$5,000,000  
annually for five years. Interest  
payments of one-eighth of one  
per cent start after this five year  
moratorium and graduate every 10  
years to a maximum of two per  
cent in the last years of the 62  
year payment period.

CHICAGO RIVER  
DRAGGED TO FIND  
DASHING GUNMANBELIEVED MARTIN DURKIN MAY  
HAVE LEAPED INTO  
RIVERDURKIN'S BULLET RIDDLED  
COAT, OVERCOAT AND CAP  
FOUND ON BRIDGE

Chicago, Nov. 13.—(UP)—The  
waters of the Chicago river were  
dragged today in an effort to find  
the body of Martin Durkin, one of  
the city's most dashing gunmen,  
who is believed to have ended his  
life by leaping into the river.

Durkin's bullet riddled coat and  
overcoat and a cap were found last  
night on the Michigan boulevard  
bridge. With them was a "farewell  
note" addressed to his mother and  
declaring his intention to commit  
suicide.

Police are somewhat skeptical,  
however, believing that Durkin  
might have left the clothing and  
note as a hoax in an effort to check  
the search for him and allow him to  
escape.

Durkin's career in outlawry was  
started by stealing automobiles.  
When Edward C. Shanahan, a fed-  
eral agent, attempted to arrest him  
for transporting a stolen automobile  
from California, Durkin shot him to  
death. Two weeks later he was  
caught in a police trap but shot his  
way to freedom, a policeman and an  
onlooker being killed in the ex-  
change of fire.

In the note that Durkin left for  
his mother he said he was suffering  
from bullet wounds and preferred to  
end his life in the river to dying in  
some basement "like a rat." He said  
he had been hiding in basements and  
getting his food from ice boxes.

Chicago, Nov. 13.—Search for the  
body of Martin Durkin, gunman,  
sheik and slayer of two detectives,  
who was thought to have committed  
suicide by drowning himself in the  
Chicago river, was abandoned this  
afternoon.

Police now believe the whole af-  
fair was a hoax to throw detectives  
off Durkin's trail.

'CHRISTIAN' GENERAL  
EVACUATES PEKING

Peking, Nov. 13.—Troops of the  
"Christian" General Peng Yuh Siang,  
hitherto stationed in Peking have  
evacuated the city leaving it under  
police guard. There has been no  
disturbance.

Close Relationship  
Between Business  
and Farm Interests

St. Paul, Minn., Nov. 13.—(UP)—  
Close relationship between business  
and farming interests will relieve  
the perplexities of agriculture, Dr. John  
Lee Colter, president of the North  
Dakota Agricultural college, told  
the conference starting here today.

"Only by working together for the  
best interests of all and for proper  
utilization of our natural resources  
can we all gain," he said. "Legis-  
lation will not do this although some  
is needed at times."

For four years Dr. Colter has been  
working out plans for closer co-  
operation between business and ag-  
riculture. He is one of the experts of  
the northwest attending the confer-  
ence for discussion of farm problems.  
The meeting is to last through to-  
morrow.

Pittsburgh, Pa., Nov. 13.—(UP)—  
Oscar Varland, 30, of Minneapolis, was  
held for further investigation in police  
court here today on a charge of be-  
ing a suspicious person. Varland is  
being held in connection with the at-  
tempted robbery of the D. B. Scheible  
home.

CLOUD OVER  
THE BLAZERS  
LIFTED TODAYOLD GRAY HAired DOCTOR DE-  
CLARED INNOCENT OF MUR-  
DER CHARGE YESTERDAYMAY GO TO NEW MEXICO AND  
BECOME A SAWMILL  
FOREMAN

By STANLEY WHITAKER  
(United Press Staff Correspondent)  
Littleton, Colo., Nov. 13.—The  
cloud that has hung over the heads  
of Dr. Harold D. Blazer and his  
daughter, Frances Blazer Bishop,  
for many years, was lifted today.

Refreshed after a peaceful night's  
rest, Blazer was in good spirits today.  
He did not have much to say about  
his trial, but the old gray haired  
doctor is now looking toward the fu-  
ture.

Blazer was cleared of all charges  
of killing his imbecile daughter in  
the district court of Arapahoe county  
yesterday.

"I am going down to Chama, N.  
M., and become a mill foreman,"  
said Blazer. "I do not know how  
soon I will go. I have a friend down  
there, who has lumber interests, and  
he wants me to become a sawmill  
foreman."

Mrs. Frances Bishop, who had  
borne a heavier burden throughout  
the trial than her father, appeared  
relieved today.

"I never believed they would con-  
vict father," she said. "But I did  
not like the idea of a hung jury. I  
am glad that he was absolved of all  
charges."

W. C. T. U. IS  
UNANIMOUS FOR  
LAW ENFORCEMENTMORE THAN 2,000 DELEGATES  
MEET IN ANNUAL CON-  
VENTION AT DETROITJANUARY 16 AND 17 DESIGNAT-  
ED "NATIONAL LAW ENFORCE-  
MENT DAYS"

Detroit, Mich., Nov. 13.—(UP)—  
Dedicated to a vigorous national  
campaign for law enforcement, more  
than 2,000 members of the national  
Women's Christian Temperance Uni-  
on met here today for their 51st  
annual convention.

An indication of the drive to  
be made by the union, the executive  
committee has designated January  
16 and 17 as "national law enforce-  
ment days," to combat the wet cam-  
paign, expected to be launched in  
Washington during the same month.

The convention formally opened  
this morning with the annual ad-  
dress of President Anna Adams Gor-  
don, of Evanston, Ill. Miss Gordon,  
who is also president of the Interna-  
tional Women's Christian Temper-  
ance Union, will retire from the na-  
tional presidency at this convention  
to devote her time to the interna-  
tional organization. She has been  
in office 10 years.

By vote of the executive com-  
mittee, Los Angeles will entertain the  
1926 convention.

"The real facts about prohibition  
uncovered by opposition propaga-  
da," amply justify the 18th amend-  
ment, Miss Gordon told delegates at  
the opening of their 51st annual  
convention today.

FOUR RUNAWAY BOYS  
PICKED UP IN CHICAGO

Chicago, Nov. 13.—(UP)—Four  
boys giving their addresses as Mil-  
waukee and all about 16 years of  
age, were picked up here today. They  
said they had bummed their way on  
freight trains after running away  
from home. Their names are Mick  
Cyskowski, Florian Gruski, Frank  
Godl, and Frank Klomarski.

WOMAN ORDERED  
TO PAY ALIMONY  
TO FORMER HUSBAND

Minneapolis, Nov. 13.—(UP)—  
The cause of social equality for  
women advanced a pace here to-  
day.

In granting a divorce to Leslie  
H. Penney and Mrs. Eva F. Pen-  
ney, the court ordered Mrs. Pen-  
ney to pay her former husband  
\$1,000 alimony.

The Penneys were married in  
New York in 1889. Their ages  
were given as 67 and 56.

CHIPPEWA FALLS  
HAS GAS WAR;  
MOTORISTS HAPPY

Chippewa Falls, Wis., Nov. 13.—  
(UP)—Chippewa Falls is enjoy-  
ing an excellent gasoline war to-  
day.

The present prices, advanced  
one-half cent Wednesday, is still  
the lowest in the country at nine  
cents a gallon.

Fearing an armistice after the  
half cent raise, motorists crowd-  
ed the stations yesterday with  
barrels, kegs and miscellaneous  
containers.

Retailers are fighting out their  
differences with slashes in prices.  
A truce is expected soon.

DEATH LIST IN  
PENNSYLVANIA ROAD  
WRECK IS NOW 10FEDERAL AND STATE INVESTI-  
GATIONS GET UNDER WAY  
TODAYTWO OF THE DEAD LISTED ARE  
AS YET UNIDENTI-  
FIED

Trenton, N. J., Nov. 13.—(UP)—  
Federal and state investigations into  
yesterday's wreck near Monmouth  
Junction, when the Pennsylvania  
railroad Mercantile Express from St.  
Louis crashed into the rear of the  
Overnight Express from Washington  
got under way today.

The death list reached 10 when  
the last body, that of an unidentified  
man, clad in pajamas, was taken  
from the twist of steel last night.  
Five of the dead had been reported  
at mid-afternoon yesterday. Arthur  
Gross of Schenectady, who had re-  
mained unconscious while rescuers  
worked in the wreckage, died late  
in the day and the other four bodies  
were found as evening wore on.

Two of the dead are as yet un-  
identified in a New Brunswick  
morgue. Six persons are in hospi-  
tals with severe injuries.

A statement given out by the of-  
fices of the Pennsylvania railroad  
reads:

"The Pennsylvania railroad's com-  
mittee in charge of the inquiry  
reached the conclusion that the en-  
gineer of train No. 6 (the Mercantile  
Express) did not observe the signals,  
which were properly set and in work-  
ing order."

The engineer, Timothy J. Carroll,  
who previously had been at the  
throttle for 15 years, without a mis-  
hap, has been suspended.

"BRANDED AS  
BEASTLY CHIEFTAIN  
OF MIDDLE AGES"ASSISTANT PROSECUTOR COX  
SCORES D. C. STEPHEN-  
SONSTATE RESUMES CLOSING ARGU-  
MENTS IN OBERHOLTZER  
CASE

Noblesville, Ind., Nov. 13.—(UP)—  
Branding D. C. Stephenson as a  
"beastly chieftain of the middle  
ages," Charles Cox, assistant prose-  
cutor, today renewed the state's de-  
mand for the lives of Stephenson,  
Earl Klenck and Earl Gentry for the  
death of Midge Oberholzer.

Cox resumed the closing arguments  
for the state in the trial of the for-  
mer Klan dragon and his two hench-  
men, charged with first degree mur-  
der for the girl's death.

"All three of these men must pay  
the extreme penalty of the law for  
this crime, else the law confesses it-  
self subordinate to Stephenson, a per-  
vert, who boasted he was above the  
law," Cox shouted as he paced up  
and down before the jury.

"If a sheep killing dog gets into  
your barn and killed your ewe lambs  
would you spare him?" Cox asked  
of the jury, 10 members of which are  
farmers. "No, you would kill him.  
The law should kill these three men,  
Stephenson, the degenerate, Klenck,  
the gorilla, and Gentry, the iron  
man, because they killed Midge  
Oberholzer."

Time and again Cox advanced to  
the defendants' table, and shook his  
fist in the face of Stephenson, purple  
with suppressed anger.

St. Cloud Looking for Bandits

St. Cloud.—Local authorities are  
on the lookout for bandits, who yes-  
terday robbed the John A. Dalker  
hardware store at Clear Lake. Stock  
valued at \$200 was taken.

ANOTHER DEATH  
IN CHICAGO'S  
GANG FIGHTINGAMATUNA DIED FROM BULLET  
WOUNDS RECEIVED  
TUESDAYAMBUSHED BY TWO MEN WHO  
SHOT HIM DOWN IN BARBER  
SHOP

Chicago, Nov. 13.—One more death  
was recorded in Chicago's gangland  
war today when Samuel (Samoots)  
Amatuna, leader of one of the beer  
factions, died from bullet wounds  
received Tuesday night. Amatuna  
was ambushed by two men who shot  
him down in a barber shop.

"Samoots" death spoiled prepara-  
tions for his marriage to Rose Pecor-  
aro, his sweetheart for more than a  
year. They were to have been mar-  
ried in the event that it became cer-  
tain that Samoots would not live,  
but he sank into unconsciousness  
suddenly and did not recover.

Amatuna, as gangland says, died  
game. He never whimpered to the  
police the name of his assassins.

Police believe Amatuna's death  
will be followed by a series of kill-  
ings for Samoots' first thought after  
being shot was to rush to his brother  
and give him the name of the shoot-  
er.

SAID HE WAS  
COLLECTING  
SOME EVIDENCENOVEL DEFENSE ADVANCED BY  
J. B. MURRAY OF ST.  
CLOUDFARMERS CHARGE HE ATTEMPT-  
ED TO EXTORT MONEY  
FROM THEM

St. Cloud, Minn., Nov. 13.—(UP)—  
J. B. Murray, public accountant,  
arrested yesterday on complaint of  
farmers who said he extorted money  
from them in the guise of a prohibi-  
tion officer, was collecting evidence  
in anticipation of an appointment by  
General W. F. Rhinow, prohibition  
director, he said at a preliminary  
hearing today.

Murray was arrested with George  
Le Roy, sales manager of a local  
manufacturing company, John Mur-  
phy, Brockway township, and Alois  
Morgel, Holdingford, told police the  
two men had threatened them with  
arrest on liquor law violation charges  
unless they paid for protection.

A check given Le Roy by Morgel  
as part payment of the sum deman-  
ded was found to substantiate Mor-  
gel's story.

At the preliminary hearing Mur-  
ray explained that he had been  
promised an appointment and with  
the help of Le Roy was gathering  
evidence to be ready to make arrests  
when it arrived. After the hearing  
he went to St. Paul to get General  
Rhinow's verification.

GEN. RHINOW  
MAKES STATEMENT

St. Paul, Minn., Nov. 13.—J. B.  
Murray is one of between 200 and  
300 persons who have filed applica-  
tions with General W. F. Rhinow for  
appointment to the northwest probi-  
tion force, the administrator told  
the United Press this afternoon.

"He was receiving the same con-  
sideration as the others but had no  
authority whatever from my office,"  
Rhinow declared. "I am without  
authority to sponsor independent  
operations of anyone outside my force."

Murray, who was reported to be  
on his way to St. Paul to ask that  
General Rhinow verify a tentative  
promise of appointment, had not  
called at the prohibition office up to  
2 P. M.

CLAIM PLOT TO  
DECLARE REPUBLIC  
IN SPAIN TODAY

Paris, Nov. 13.—(UP)—Madrid  
dispatches today said that a plot  
to declare a republic in Spain had  
been unearthed.

The conspiracy against the mili-  
tary directorate headed by Primo  
De Rivera, was said to have re-  
sulted in the arrest of General  
Lopez Ochoa and a group of colo-  
nels, majors and lesser military  
men.

MARRIAGE LICENSE  
BUREAU DESERTED  
FRIDAY, NOV. 13

Chicago, Nov. 13.—(UP)—The  
marriage license bureau, usually  
one of the busiest offices in the  
city hall, was virtually deserted  
today.

Fearing the hoodoo, prospective  
brides and grooms who failed to  
get under the wire yesterday  
stayed away for this is Friday the  
13th. More than 300 licenses were  
issued yesterday and the office  
was kept open later than usual  
to take care of the rush.

Dr. Herman Bundesen, health  
commissioner, took occasion to is-  
sue a statement ridiculing the  
Friday the 13th hoodoo.

"There's nothing to it," he de-  
clared. "The man who looks for  
trouble will find it on this day  
as on any other day."

ENGLISH NAVY  
FEARS WHOLE SUB  
CREW PERISHED4 OFFICERS, 64 MEN AND SUB  
M-1 IN 162 FEET OF  
WATERSCENE OF TRAGEDY BELIEVED  
BEYOND ISLE OF  
WIGHT

London, Nov. 13.—(UP)—The  
navy feared today the four officers  
and 64 men of the missing submar-  
ine M-1 have perished in 27 fathoms  
(162) feet of water beyond the Isle  
of Wight.

Navy men pictured the giant un-  
dersea boat as lying there with her  
back broken by a hard dive, but  
their search throughout the night  
and the forenoon had failed to re-  
veal any trace of the craft.

Destroyers cruising around the  
spot where the M-1 was last seen  
found no tell-tale oil patches. Mine  
sweepers and warships have joined  
in the hunt and divers have been  
called to descend into the depths but  
heavy weather sweeping to the Devon  
coast, makes diving perilous.

It was pointed out that under nor-  
mal conditions, the M-1 was equip-  
ped to supply enough air to her crew  
for four days while submerged but  
it is feared that she made a "crash"  
dive which halted only at the bot-  
tom, ripping her framework apart  
and drowning her entire complement.

London, Nov. 13.—The missing  
British submarine M-1 was reported  
in a Portland wireless message today  
to have been located 12 miles south  
of Start Point near the Isle of Wight,  
in water too deep to permit of diving  
and raising operations.

There is a possibility that the  
submarine in plunging yesterday en-  
countered hidden wreckage of some  
craft sunk by submarines during the  
war.

Microphonic apparatus on board  
the submarine and on some of the  
searching craft can establish whether  
any of the submarine crew still  
lives.

A further Portland message said  
that naval men had ascertained that  
the M-1 had not collided with wreck-  
age under the surface and that they  
still hoped that some of the crew  
lived. However, with the divers un-  
able to reach her and with her  
weight precluding hoisting, it was  
suggested that there was little real  
chance the undersea mariners would  
ever come out alive. Meantime the  
admiralty issued a statement saying  
it had not received intelligence en-  
abling it to give credence to the  
statement from Portland that the ves-  
sel was located.

GAS EXPLOSION ON  
FRENCH SUBMARINE

Toulon, Nov. 13.—A gas explosion  
today aboard the French submarine  
Neride started a fire and injured  
two of the crew.

BUYERS OF STOCK  
SHOW ATTENTIONS  
TO YOUNG FARMERS

St. Paul, Nov. 13.—(UP)—Orig-  
inal owners of prize winning entries  
at the Junior livestock show conclud-  
ed Wednesday will betaken on a ten  
day tour through the Northwest by  
buyers of stock, it was decided at a  
luncheon of purchasers today.

The trip will be made through  
Willmar, Fargo, Hannaford and New  
Rockford to Minot, N. D., and return  
via Devils Lake, Grand Forks, Crook-  
ston, Barnesville, Fergus Falls and  
St. Cloud.

Tentative plans for the tour were  
made but no definite date set. The  
prize winning stock sold at record  
prices yesterday morning but fell off  
some in the afternoon bidding. All  
entries were sold today and the ex-  
hibitors returned to their homes.

FRENZIED ACTIVITY  
WITH BANNERS,  
BUNTING, BULLY BEEFCROWDS ATTRACTED FOR CRU-  
CIAL GAME TOMOR-  
ROWEVENTS BEGIN TONIGHT WITH A  
BARBECUE AND PEP-  
FEST

Minneapolis, Nov. 13.—(UP)—  
Frenzied activity with banners,  
bunting, bully beef and miscellane-  
ous decorative and festive raw ma-  
terials was rife on the University  
campus today in preparation for  
what is expected to be the greatest  
homecoming in years.

With a possible conference cham-  
pion team attracting hundreds for  
the crucial game tomorrow against  
Iowa, the campus is undergoing a  
dressing up in keeping with the un-  
usual importance of the principal  
event. The incidental activities are  
likewise to be more elaborate.

Events will begin tonight with a  
barbecue and pepfest. Three barbe-  
cue experts from Alabama are to of-  
fciate at the open air cooking of a  
cow and a hog. The feature is an  
innovation at Minnesota. A pyro-  
technic display is another of the  
scheduled events.

Coach Spears and Captain Ascher  
are to be the principal speakers at  
tonight's meeting.

Crowds of alumni have already  
started to arrive for the homecoming  
game. Memorial Stadium is practi-  
cally sold out. A record crowd is ex-  
pected. If weather conditions re-  
main favorable the 1925 homecom-  
ing should make history at Minne-  
sota.

Iowa City, Iowa, Nov. 13.—A spe-  
cial train carrying approximately  
300 rooters left here today for Min-  
neapolis to attend the Minnesota-  
Iowa game of football Saturday.

Coach Burt Ingwersen and 28  
Hawkeye riders left here last  
night. It will be the final Big Ten  
conference game of the season for  
Iowa.

With Cowboy Nick Kutsch alter-  
nating with Wesley Fry in carrying  
the ball, the Hawkeyes are hoping  
for a dry field. The cowboy will be  
playing his first game in a month,  
but is in fairly good condition and  
should be a constant threat although  
the brunt of the attack will be  
against Fry.

Governor Blaine Makes  
Public Letters Regarding  
University Regents Board

Madison, Wis., Nov. 13.—Gov. John  
Blaine without comment made  
public two letters which purport to  
reveal the circumstances surround-  
ing the "resignation" last summer of  
State Senator C. B. Casperson, Fred-  
erick, from the university board of  
regents.

Considerable political significance  
is placed on the publication of the  
letters by members of Madison poli-  
tical circles coming as it does on the  
heels of an article published in a  
local newspaper, in which Senator  
Casperson attacked the governor for  
"ousting" C. B. Ballard as treasury  
agent, and announced he will offer  
to support Secretary of State Fred  
Zimmerman for United States sena-  
tor and Attorney General Herman L.  
Ekern for governor in the 1926  
gubernatorial election.

The two letters both carrying the  
date August 24, 1925, deal with the  
demand for and the submission of  
Casperson's resignation.

OVERCOME BY  
MONOXIDE GAS

Fargo, N. D., Nov. 13.—(UP)—Elmer  
Dynes, 30, son of Mr. and Mrs. John  
Dynes, Rosseau, Minn., was found  
dead in the garage at the home of his  
sister here today. Monoxide poison-  
ing caused the death, an inquest re-  
vealed.

Dynes, an instructor in the depart-  
ment of mathematics at the agricul-  
tural college here, had evidently re-  
turned to his boarding place last night.  
He was overcome while working on  
his automobile.

## MITCHELL COURT MARTIAL NOW STUDIES GAS

### DROPS FOR A TIME PROBING OF SHENANDOAH

WONDERS HOW MUCH GAS IT WOULD TAKE TO EVACUATE DISTRICT OF COLUMBIA  
GEN. DRUM SAID IT WOULD TAKE 2,000 AIRPLANES TO DELIVER THE GAS

By WILLIAM J. McEVROY  
(United Press Staff Correspondent)  
Washington, Nov. 13.—Dropping for the moment the inquiry into alleged irregularities in connection with the testimony of Mrs. Margaret Ross Lansdowne at the investigation of the dirigible Shenandoah disaster, the court martial trying Colonel Billy Mitchell for alleged insubordination today studied how much gas it would take to force evacuation of an area the size of the District of Columbia.

This line of inquiry was taken up after an unsuccessful effort had been made by the prosecution to strike from the records the testimony of Mrs. Lansdowne, widow of the Shenandoah's dead commander.

Brigadier General Hugh Drum, assistant chief of staff, precipitated the gas controversy in testimony before the president's special air board by declaring it would take vast quantities to force evacuation. His estimates have been disputed frequently by witnesses at the court martial.

Colonel J. Edward Cassidy, chemical warfare reserve officer and consulting engineer of Washington, regarded as the "ranking" chemical warfare service officer in the United States, was the first witness called. "General Drum said it would take 3,439,150 pounds of mustard gas to gas the District of Columbia, or 9,573,850 pounds to force its evacuation," said Reid. "Is that correct?"

"Absolutely not," was the answer. "General Drum said it would take 2,000 planes to deliver this gas," Reid said. "Is that true?"

"No, sir."

Under cross questioning, however, Cassidy admitted that "There is no such thing as determining how much gas it would take to gas a given area."

Moreland also forced from Cassidy an admission that Drum probably had testified correctly so far as figures given in an approved army engineering manual were concerned. "But his statements are not correct," Cassidy added.

Washington, Nov. 13.—Prosecution leaders in the Mitchell court martial today took up the question of answering the charges of Mrs. Zachary Lansdowne, widow of the Shenandoah commander, who accused Captain Paul Foley, judge advocate of the naval court, investigating the dirigible disaster, with attempting to influence her testimony.

Colonel Sherman Moreland, the prosecutor for the jury of generals trying the Texas air colonel on charges of insubordination, said he would decide later whether to call Foley and Mrs. George W. Steele, wife of the Lakehurst, N. J., air station commander, who Mrs. Lansdowne said, delivered a memorandum from Foley. The memorandum suggested Mrs. Lansdowne testify that her husband was willing to take his airship, the Shenandoah, "anywhere, any time and under any weather conditions."

Foley told the United Press today he had asked to appear before the Mitchell court and that the war department counsel had assured him he would be summoned as soon as Mitchell finished presenting his testimony.

Mrs. Lansdowne's charge came as a bombshell in the navy department, where officials today refused to comment in anyway on expected developments or a possible counter offensive.

Mrs. Lansdowne also told of a visit to her by Foley two days before the Shenandoah court convened in which she said Foley tried to get her to rehearse the story she intended to tell the inquiry. She refused, she said, advising him merely that it was her purpose to show that the Shenandoah was sent westward to her doom and the resultant deaths of her husband and 13 members of the crew "on a political flight."

When court opened today a motion to strike out the testimony of Mrs. Lansdowne was made by Colonel Sherman Moreland, trial judge advocate.

The attempt to expunge the sensational testimony of the widow of the Shenandoah commander failed, however, when the court of generals overruled the motion after a spirited argument between opposing counsel and a 10 minutes' secret session of the court.

## Minn. U. Greatest Homecoming Program in Years

### U. S. NOW TAKES UP REFUNDING RUMANIA'S DEBT

Washington, Nov. 13.—(UP)—With Italy's war debt to the United States funded, the American debt commission today took up negotiations with Rumania's debt commission for settlement of that nation's \$46,500,000 obligation.

Funding agreements with 11 of the 20 nations who borrowed from this country during and after the war have now been effected. The Italian payments start immediately upon signature of the contract tomorrow at \$5,000,000 annually for five years. Interest payments of one-eighth of one per cent start after this five year moratorium and graduate every 10 years to a maximum of two per cent in the last years of the 62 year payment period.

### CHICAGO RIVER DRAGGED TO FIND DASHING GUNMAN

BELIEVED MARTIN DURKIN MAY HAVE LEAPED INTO RIVER

DURKIN'S BULLET RIDDLED COAT, OVERCOAT AND CAP FOUND ON BRIDGE

Chicago, Nov. 13.—(UP)—The waters of the Chicago river were dragged today in an effort to find the body of Martin Durkin, one of the city's most dashing gunmen, who is believed to have ended his life by leaping into the river.

Durkin's bullet riddled coat and overcoat and a cap were found last night on the Michigan boulevard bridge. With them was a "farewell note" addressed to his mother and declaring his intention to commit suicide.

Police are somewhat skeptical, however, believing that Durkin might have left the clothing and note as a hoax in an effort to check the search for him and allow him to escape.

Durkin's career in outlawry was started by stealing automobiles. When Edward C. Shanahan, a federal agent, attempted to arrest him for transporting a stolen automobile from California, Durkin shot him to death. Two weeks later he was caught in a police trap but shot his way to freedom, a policeman and an onlooker being killed in the exchange of fire.

In the note that Durkin left for his mother he said he was suffering from bullet wounds and preferred to end his life in the river to dying in some basement "like a rat." He said he had been hiding in basements and getting his food from ice boxes.

Chicago, Nov. 13.—Search for the body of Martin Durkin, gunman, sheik and slayer of two detectives, who was thought to have committed suicide by drowning himself in the Chicago river, was abandoned this afternoon.

Police now believe the whole affair was a hoax to throw detectives off Durkin's trail.

### 'CHRISTIAN' GENERAL EVACUATES PEKING

Peking, Nov. 13.—Troops of the "Christian" General Feng Yuh Siang, hitherto stationed in Peking have evacuated the city leaving it under police guard. There has been no disturbance.

### Close Relationship Between Business and Farm Interests

St. Paul, Minn., Nov. 13.—(UP)—Close relationship between business and farming interests will relieve the perplexities of agriculture, Dr. John Lee Colter, president of the North Dakota Agricultural college, told the conference starting here today.

"Only by working together for the best interests of all and for proper utilization of our natural resources can we all gain," he said. "Legislation will not do this although some is needed at times."

For four years Dr. Colter has been working out plans for closer cooperation between business and agriculture. He is one of the experts of the northwest attending the conference for discussion of farm problems. The meeting is to last through tomorrow.

Pittsburgh, Pa., Nov. 13.—(UP)—Oscar Varland, 30, of Minneapolis, was held for further investigation in police court here today on a charge of being a suspicious person. Varland is being held in connection with the attempted robbery of the D. B. Scheible home.

### CLOUD OVER THE BLAZERS LIFTED TODAY

OLD GRAY HAIREDD DOCTOR DECLARED INNOCENT OF MURDER CHARGE YESTERDAY

MAY GO TO NEW MEXICO AND BECOME A SAWMILL FOREMAN

By STANLEY WHITAKER  
(United Press Staff Correspondent)  
Littleton, Colo., Nov. 13.—The cloud that has hung over the heads of Dr. Harold D. Blazer and his daughter, Frances Blazer Bishop, for many years, was lifted today.

Refreshed after a peaceful night's rest, Blazer was in good spirits today. He did not have much to say about his trial, but the old gray haired doctor is now looking toward the future.

Blazer was cleared of all charges of killing his imbecile daughter in the district court of Arapahoe county yesterday.

"I am going down to Chama, N. M., and become a mill foreman," said Blazer. "I do not know how soon I will go. I have a friend down there, who has lumber interests, and he wants me to become a sawmill foreman."

Mrs. Frances Bishop, who had borne a heavier burden throughout the trial than her father, appeared relieved today.

"I never believed they would convict father," she said. "But I did not like the idea of a hung jury. I am glad that he was absolved of all charges."

### W. C. T. U. IS UNANIMOUS FOR LAW ENFORCEMENT

MORE THAN 2,000 DELEGATES MEET IN ANNUAL CONVENTION AT DETROIT

JANUARY 16 AND 17 DESIGNATED "NATIONAL LAW ENFORCEMENT DAYS"

Detroit, Mich., Nov. 13.—(UP)—Dedicated to a vigorous national campaign for law enforcement, more than 2,000 members of the national Women's Christian Temperance Union met here today for their 51st annual convention.

An indication of the drive to be made by the union, the executive committee has designated January 16 and 17 as "national law enforcement days," to combat the wet campaign, expected to be launched in Washington during the same month.

The convention formally opened this morning with the annual address of President Anna Adams Gordon, of Evanston, Ill. Miss Gordon, who is also president of the International Women's Christian Temperance Union, will retire from the national presidency at this convention to devote her time to the international organization. She has been in office 10 years.

By vote of the executive committee, Los Angeles will entertain the 1926 convention.

"The real facts about prohibition uncolored by opposition propaganda," amply justify the 18th amendment, Miss Gordon told delegates at the opening of their 51st annual convention today.

### FOUR RUNAWAY BOYS PICKED UP IN CHICAGO

Chicago, Nov. 13.—(UP)—Four boys giving their addresses as Milwaukee and all about 16 years of age, were picked up here today. They said they had bummed their way on freight trains after running away from home. Their names are Mick Cyskowski, Florian Gruski, Frank Godl, and Frank Klomarski.

### WOMAN ORDERED TO PAY ALIMONY TO FORMER HUSBAND

Minneapolis, Nov. 13.—(UP)—The cause of social equality for women advanced a pace here today.

In granting a divorce to Leslie H. Penney and Mrs. Eva F. Penney, the court ordered Mrs. Penney to pay her former husband \$1,000 alimony.

The Penneys were married in New York in 1889. Their ages were given as 67 and 56.

### CHIPPEWA FALLS HAS GAS WAR; MOTORISTS HAPPY

Chippewa Falls, Wis., Nov. 13.—(UP)—Chippewa Falls is enjoying an excellent gasoline war today.

The present prices, advanced one-half cent Wednesday, is still the lowest in the country at nine cents a gallon.

Fearing an armistice after the half cent raise, motorists crowded the stations yesterday with barrels, kegs and miscellaneous containers.

Retailers are fighting out their differences with slashes in prices. A truce is expected soon.

### DEATH LIST IN PENNSYLVANIA ROAD WRECK IS NOW 10

FEDERAL AND STATE INVESTIGATIONS GET UNDER WAY TODAY

TWO OF THE DEAD LISTED ARE AS YET UNIDENTIFIED

Trenton, N. J., Nov. 13.—(UP)—Federal and state investigations into yesterday's wreck near Monmouth Junction when the Pennsylvania railroad Mercantile Express from St. Louis crashed into the rear of the Overnight Express from Washington got under way today.

The death list reached 10 when the last body, that of an unidentified man, clad in pajamas, was taken from the twist of steel last night. Five of the dead had been reported at mid-afternoon yesterday. Arthur Gross of Schenectady, who had regained consciousness while rescuers worked in the wreckage, died late in the day and the other four bodies were found as evening wore on.

Two of the dead are as yet unidentified in a New Brunswick morgue. Six persons are in hospitals with severe injuries.

A statement given out by the offices of the Pennsylvania railroad reads:

"The Pennsylvania railroad's committee in charge of the inquiry reached the conclusion that the engineer of train No. 6 (the Mercantile Express) did not observe the signals, which were properly set and in working order."

The engineer, Timothy J. Carroll, who previously had been at the throttle for 15 years, without a mishap, has been suspended.

### "BRANDED AS BEASTLY CHIEFTAIN OF MIDDLE AGES"

ASSISTANT PROSECUTOR COX SCORES D. C. STEPHENSON

STATE RESUMES CLOSING ARGUMENTS IN OBERHOLTZER CASE

Noblesville, Ind., Nov. 13.—(UP)—Branding D. C. Stephenson as a "beastly chieftain of the middle ages," Charles Cox, assistant prosecutor, today renewed the state's demand for the lives of Stephenson, Earl Klenck and Earl Gentry for the death of Madge Oberholtzer.

Cox resumed the closing arguments for the state in the trial of the former Klan dragon and his two henchmen, charged with first degree murder for the girl's death.

"All three of these men must pay the extreme penalty of the law for this crime, else the law confesses itself subordinate to Stephenson, a pervert, who boasted he was above the law," Cox shouted as he paced up and down before the jury.

"If a sheep killing dog gets into your barn and killed your ewe lambs would you spare him?" Cox asked of the jury, 10 members of which are farmers. "No, you would kill him. The law should kill these three men, Stephenson, the degenerate, Klenck, the gorilla, and Gentry, the iron man, because they killed Madge Oberholtzer."

Time and again Cox advanced to the defendants' table, and shook his fist in the face of Stephenson, purple with suppressed anger.

St. Cloud—Local authorities are on the lookout for bandits, who yesterday robbed the John A. Daiker hardware store at Clear Lake. Stock valued at \$200 was taken.

### ANOTHER DEATH IN CHICAGO'S GANG FIGHTING

AMATUNA DIED FROM BULLET WOUNDS RECEIVED TUESDAY

AMBUSHED BY TWO MEN WHO SHOT HIM DOWN IN BARBER SHOP

Chicago, Nov. 13.—One more death was recorded in Chicago's gangland war today when Samuel (Samoots) Amatuna, leader of one of the beer factions, died from bullet wounds received Tuesday night. Amatuna was ambushed by two men who shot him down in a barber shop.

"Samoots' death spoiled preparations for his marriage to Rose Pecoraro, his sweetheart for more than a year. They were to have been married in the event that it became certain that Samoots would not live, but he sank into unconsciousness and did not recover."

Amatuna, as gangland says, died game. He never whimpered to the police the name of his assassins.

Police believe Amatuna's death will be followed by a series of killings for Samoots' first thought after being shot was to rush to his brother and give him the name of the shooter.

### SAID HE WAS COLLECTING SOME EVIDENCE

NOVEL DEFENSE ADVANCED BY J. B. MURRAY OF ST. CLOUD

FARMERS CHARGE HE ATTEMPTED TO EXTORT MONEY FROM THEM

St. Cloud, Minn., Nov. 13.—(UP)—J. B. Murray, public accountant, arrested yesterday on complaint of farmers who said he extorted money from them in the guise of a prohibition officer, was collecting evidence in anticipation of an appointment by General W. F. Rhinow, prohibition director, he said at a preliminary hearing today.

Murray was arrested with George Le Roy, sales manager of a local manufacturing company, John Murphy, Brockway township, and Alois Mergel, Holdingford, told police the two men had threatened them with arrest on liquor law violation charges unless they paid for protection.

A check given Le Roy by Mergel as part payment of the sum demanded was found to substantiate Mergel's story.

At the preliminary hearing Murray explained that he had been promised an appointment and with the help of Le Roy was gathering evidence to be ready to make arrests when it arrived. After the hearing he went to St. Paul to get General Rhinow's verification.

There is a possibility that the submarine in plunging yesterday encountered hidden wreckage of some craft sunk by submarines during the war.

Microphonic apparatus on board the submarine and on some of the searching craft can establish whether any of the submarine crew still lives.

A further Portland message said that naval men had ascertained that the M-1 had not collided with wreckage under the surface and that they still hoped that some of the crew lived. However, with the divers unable to reach her and with her weight precluding hoisting, it was suggested that there was little real chance the undersea mariners would ever come out alive. Meantime the admiralty issued a statement saying it had not received intelligence enabling it to give credence to the statement from Portland that the vessel was located.

### GAS EXPLOSION ON FRENCH SUBMARINE

Toulon, Nov. 13.—A gas explosion today aboard the French submarine Nerelide started a fire and injured two of the crew.

### BUYERS OF STOCK SHOW ATTENTIONS TO YOUNG FARMERS

St. Paul, Nov. 13.—(UP)—Original owners of prize winning entries at the Junior livestock show concluded Wednesday will betaken on a ten day tour through the Northwest by buyers of stock, it was decided at a luncheon of purchasers today.

The trip will be made through Willmar, Fargo, Hannaford and New Rockford to Minot, N. D., and return via Devils Lake, Grand Forks, Crookston, Barnesville, Fergus Falls and St. Cloud.

Tentative plans for the tour were made but no definite date set. The prize winning stock sold at record prices yesterday morning but fell off some in the afternoon bidding. All entries were sold today and the exhibitors returned to their homes.

### MARRIAGE LICENSE BUREAU DESERTED FRIDAY, NOV. 13

Chicago, Nov. 13.—(UP)—The marriage license bureau, usually one of the busiest offices in the city hall, was virtually deserted today.

Fearing the hoodoo, prospective brides and grooms who failed to get under the wire yesterday stayed away for this is Friday the 13th. More than 300 licenses were issued yesterday and the office was kept open later than usual to take care of the rush.

Dr. Herman Bundesen, health commissioner, took occasion to issue a statement ridiculing the Friday the 13th hoodoo. "There's nothing to it," he declared. "The man who looks for trouble will find it on this day as on any other day."

### ENGLISH NAVY FEARS WHOLE SUB CREW PERISHED

4 OFFICERS, 64 MEN AND SUB M-1 IN 162 FEET OF WATER

SCENE OF TRAGEDY BELIEVED BEYOND ISLE OF WIGHT

London, Nov. 13.—(UP)—The navy feared today the four officers and 64 men of the missing submarine M-1 have perished in 27 fathoms (162) feet of water beyond the Isle of Wight.

Navy men pictured the giant undersea boat as lying there with her back broken by a hard dive, but their search throughout the night and the forenoon had failed to reveal any trace of the craft.

Destroyers cruising around the spot where the M-1 was last seen found no tell-tale oil patches. Mine sweepers and warships have joined in the hunt and divers have been called to descend into the depths but heavy weather sweeping to the Devon coast, makes diving perilous.

It was pointed out that under normal conditions, the M-1 was equipped to supply enough air to her crew for four days while submerged but it is feared that she made a "crash" dive which halted only at the bottom, ripping her framework apart and drowning her entire complement.

London, Nov. 13.—The missing British submarine M-1 was reported in a Portland wireless message today to have been located 12 miles south of Start Point near the Isle of Wight, in water too deep to permit of diving and raising operations.

There is a possibility that the submarine in plunging yesterday encountered hidden wreckage of some craft sunk by submarines during the war.

Microphonic apparatus on board the submarine and on some of the searching craft can establish whether any of the submarine crew still lives.

A further Portland message said that naval men had ascertained that the M-1 had not collided with wreckage under the surface and that they still hoped that some of the crew lived. However, with the divers unable to reach her and with her weight precluding hoisting, it was suggested that there was little real chance the undersea mariners would ever come out alive. Meantime the admiralty issued a statement saying it had not received intelligence enabling it to give credence to the statement from Portland that the vessel was located.

### Governor Blaine Makes Public Letters Regarding University Regents Board

Madison, Wis., Nov. 13.—Gov. John Blaine without comment made public two letters which purport to reveal the circumstances surrounding the "resignation" last summer of State Senator C. B. Casperson, Frederic, from the university board of regents.

Considerable political significance is placed on the publication of the letters by members of Madison political circles coming as it does on the heels of an article published in a local newspaper, in which Senator Casperson attacked the governor for "ousting" C. B. Ballard as treasury agent, and announced he will offer to support Secretary of State Fred Zimmerman for United States senator and Attorney General Herman L. Ekern for governor in the 1926 gubernatorial election.

The two letters both carrying the date August 24, 1925, deal with the demand for and the submission of Casperson's resignation.

### OVERCOME BY MONOXIDE GAS

Fargo, N. D., Nov. 13.—(UP)—Elmer Dynes, 30, son of Mr. and Mrs. John Dynes, Rosseau, Minn., was found dead in the garage at the home of his sister here today. Monoxide poisoning caused the death, an inquest revealed.

Dynes, an instructor in the department of mathematics at the agricultural college here, had evidently returned to his boarding place last night. He was overcome while working on his automobile.

### FRENZIED ACTIVITY WITH BANNERS, BUNTING, BULLY BEEF

CROWDS ATTRACTED FOR CRUCIAL GAME TOMORROW

EVENTS BEGIN TONIGHT WITH A BARBECUE AND PEP-FEST

Minneapolis, Nov. 13.—(UP)—Frenzied activity with banners, bunting, bully beef and miscellaneous decorative and festive raw materials was rife on the University campus today in preparation for what is expected to be the greatest homecoming in years.

With a possible conference champion team attracting hundreds for the crucial game tomorrow against Iowa, the campus is undergoing a dressing up in keeping with the unusual importance of the principal event. The incidental activities are likewise to be more elaborate.

Events will begin tonight with a barbecue and pepfest. Three barbecue experts from Alabama are to officiate at the open air cooking of a cow and a hog. The feature is an innovation at Minnesota. A pyrotechnic display is another of the scheduled events.

Coch Spear and Captain Ascher are to be the principal speakers at tonight's meeting.

Crowds of alumni have already started to arrive for the homecoming game. Memorial Stadium is practically sold out. A record crowd is expected. If weather conditions remain favorable the 1925 homecoming should make history at Minnesota.

Iowa City, Iowa, Nov. 13.—A special train carrying approximately 300 rooters left here today for Minneapolis to attend the Minnesota-Iowa game of football Saturday.

Coch Burt Ingwersen and 28 Hawkeye gridders left here last night. It will be the final Big Ten conference game of the season for Iowa.

With Cowboy Nick Kutsch alternating with Wesley Fry in carrying the ball, the Hawkeyes are hoping for a dry field. The cowboy will be playing his first game in a month, but is in fairly good condition and should be a constant threat although the brunt of the attack will be against Fry.

### Governor Blaine Makes Public Letters Regarding University Regents Board

Madison, Wis., Nov. 13.—Gov. John Blaine without comment made public two letters which purport to reveal the circumstances surrounding the "resignation" last summer of State Senator C. B. Casperson, Frederic, from the university board of regents.

Considerable political significance is placed on the publication of the letters by members of Madison political circles coming as it does on the heels of an article published in a local newspaper, in which Senator Casperson attacked the governor for "ousting" C. B. Ballard as treasury agent, and announced he will offer to support Secretary of State Fred Zimmerman for United States senator and Attorney General Herman L. Ekern for governor in the 1926 gubernatorial election.

The two letters both carrying the date August 24, 1925, deal with the demand for and the submission of Casperson's resignation.

### OVERCOME BY MONOXIDE GAS

Fargo, N. D., Nov. 13.—(UP)—Elmer Dynes, 30, son of Mr. and Mrs. John Dynes, Rosseau, Minn., was found dead in the garage at the home of his sister here today. Monoxide poisoning caused the death, an inquest revealed.

Dynes, an instructor in the department of mathematics at the agricultural college here, had evidently returned to his boarding place last night. He was overcome while working on his automobile.

### Cokato Editor Gets Out Belated Issue

Minneapolis, Nov. 13.—(UP)—Edgar Hall, Cokato editor, was back at his newspaper office today rushing a belated edition. He was released from jail when it was satisfactorily established that he was merely waving at friends in the Armistice day parade when his crutch broke a store window. He had been charged with malicious destruction of property.

BLANKET DANCE FUN FESTIVAL

Planned by Brainerd Aerie No. 287 of The Eagles

TUESDAY NIGHT, JANUARY 26

Proceeds Realized to go Into Social Fund of the Local Order

Brainerd Aerie No. 287, Fraternal Order of Eagles, is planning for a blanket dance and fun festival to be held in the Citizens State bank hall on Tuesday evening, January 26th, 1926. Tickets are already being offered for sale by members of the order and because of their low price are finding ready buyers.

The funds realized from this dance and festival will be placed in the social fund of the local lodge, and will be used for entertainment features.

In the past, the Eagles have staged a number of excellent social functions for which no charge was made, and this has caused the lowering of

CITATION FOR HEARING ON PETITION FOR PROBATE OF WILL

No. 2816

State of Minnesota, County of Crow Wing, In Probate Court.

In the matter of the estate of Martin A. Luther, Decedent.

The State of Minnesota to all persons interested in the allowance and probate of the will of the decedent: The petition of Annie Luther, being duly filed in this court, representing that Martin A. Luther, then a resident of the County of Crow Wing, State of Minnesota, died on the 12th day of August, 1925, leaving a last will and testament which is presented to this court with said petition, and praying that said instrument be allowed as the last will and testament of said decedent, and that letters testamentary be issued thereon to Annie Luther. Now, therefore, you, and each of you, are hereby cited and required to show cause, if any you have, before this court, at the Probate Court Rooms in the Court House, in Brainerd, County of Crow Wing, State of Minnesota, on the 23rd day of November, 1925, at 10 o'clock A. M., why the prayer of said petition should not be granted.

Witness, the Honorable L. B. Kinder, Judge of said court, and the seal of said court, this 23rd day of October, 1925. (Probate Court Seal) L. B. KINDER, Judge.

S. F. ALDERMAN, Attorney for Petitioner.

## Many Ways to Use Velvet in Outfit

### No Hard-and-Fast Rule for Treatment of Popular Material.

There are countless ways in which velvet is being used, and as many styles of combining velvet with other materials. It is a most grateful fabric to handle, notes a fashion correspondent in the New York Times, for it makes effective contrast with any one of many other goods. It makes more important a woolen finish, embellishes satin and is shown in novel partnership with lame, with the splendid Bianchini fabrics, with chiffon, and in some particularly smart models is trimmed with gilt leather, with jet, metal beads, brilliants, or is ornamented with needlework done in bright-colored crevices. There is no hard-and-fast rule for the treatment of velvet. It is a matter of individual creative ability. The point of significance is that the gown, or wrap, or hat become the wearer, and in wearing velvet every woman presents herself most flatteringly. The period gown, the simple tight bodice with long, full skirt, is tremendously picturesque in velvet, in black or color, or requires no trimming. A quaint effect is given by adding a bertha of fine lace to one of these old-style velvet gowns, a costume that is becoming to every type of beauty and to women of every age.

Altogether, velvet, in innumerable ways and in varied technique, is contributing an element of great impor-

Latest in Vogue of Velvet—Applique of Black and White.

tance to the season. It is a boon and joy to many because of its possibilities even in the hands of an amateur. A band of wide velvet ribbon will form a rich trimming for the skirt of chiffon, or taffeta dress, to be repeated in the bodice. Velvet shoulder straps as they are shown in a jeune fille frock of chiffon; ties of velvet ribbon looped at the back of a high-cut bodice; a belt, wristbands and occasional straps are familiar ways of giving chic to an otherwise uninteresting frock.

## RED CROSS FINANCES SHOW WIDE SERVICES

Past Year Cost \$10,321,679.80; Duty to Ex-Service Men Paramount.

Washington.—The national and international services of the American Red Cross are portrayed graphically in a statement of the Red Cross finances for the past fiscal year ended June 30, 1925. Expenditures by the Red Cross (including both the National Organization and the Chapters) during this period aggregated \$10,321,679.80.

The obligation of the American Red Cross to the ex-service and service men is represented in this sum by a total expenditure of \$4,225,292.61. In the interests of disabled veterans, the Red Cross expended \$3,577,916.42, of which \$1,677,916.42 came from the National Organization, and \$1,900,000 from the more than 3,000 Chapters and local branches of the society. Red Cross services to the men of the Regular Army and Navy the past year called for \$647,376.19, of which the National Organization furnished \$310,376.19, and the Chapters, \$337,000.

Sharing in importance with this responsibility was the Red Cross work of disaster relief during the year. In these operations there was absorbed a total of \$1,922,782.90 up to June 30, this year. This represented \$1,622,782.90 of National Organization funds and \$300,000 from the Chapters. Relief in foreign disasters amounted to \$285,679.35. This sum was appropriated altogether by the National Organization.

Insular and foreign operations of the American Red Cross during the year

included relief in foreign disasters, the League of Red Cross Societies, Juniors Red Cross Foreign Projects, assistance to Insular Chapters and similar functions. Besides its disaster relief, the National Organization financed these other branches of foreign work also, including \$110,238.72 for assistance to insular chapters, \$177,450 for the League of Red Cross Societies, \$84,384.43 for Junior projects abroad, and \$80,057.62 for other insular and foreign operations.

In addition to its paramount duty to assist veterans and other service men and their families, and its disaster relief, the Red Cross expended at home through its national and chapter funds, a total of \$1,029,616.05 for its Public Health Nursing Service; \$154,135.09 for nutrition instruction; \$314,422.76 for First Aid and Life Saving; \$445,707.34 for Junior Red Cross; \$132,759.88 for instruction in Home Hygiene and Care of the Sick; and carried on similarly important home duties. Included in the latter were such valuable services as the Enrolled Nurses' Reserve, for which the National Organization expended \$45,562.64; while other national operations at home amounted to \$302,957.64. The chapters, in addition to the large part they played in all Red Cross

activity, spent \$678,000 of their own funds on general chapter services. The broad humanity of the American Red Cross can never be measured by the money it costs, but even in bare terms of dollars and cents, the scope of its work is indicated. A study of these facts also shows the necessity for the largest possible enrollment, since Red Cross service is maintained almost entirely by its membership. The annual invitation to participate in this work through membership in the American Red Cross, is extended from Armistice Day, November 11, to Thanksgiving, November 26.

### What Counts

It is said that the original "Safety First" sign was put over a gate at the Illinois Steel company's plant about sixteen years ago. But the important thing is not so much when it was first put up as when it was last remembered.

### Coal

Most of the world's underground supply of coal is in the northern hemisphere, chiefly in North America and Europe, and but a small fraction of it is in the southern hemisphere.—Science Service

### Dollars "Shaved"

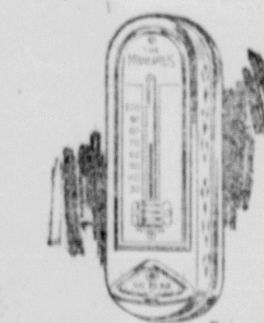

Large numbers of "shaved" American dollars are passed out as change to American travelers in oriental ports. Milled edges of some of the coins have been entirely trimmed away. Chinese employees on passenger liners are said to be responsible for the mutilation. They sell the silver shavings in Shanghai and Hong Kong and return the money to circulation.

### World's Largest Desert

The Sahara, the largest desert in the world, extends along the northern part of Africa from the Atlantic ocean to the valley of the Nile, a distance of 3,000 miles. Its area is 2,000,000 square miles.

### Big Change in Face Powders

A new French process powder that is not affected by perspiration—will not let an ugly shine come through; stays on until you take it off; fine and pure; makes the pores invisible; looks like beautiful natural skin; gives a soft, velvety complexion. Get this new wonderful beauty powder called Mello-glo. Johnson's Pharmacy and Economy Drug Co.—Adv.

The only part of your heating plant you need see or touch when you have Kleen-Heet—this thermostat in your living room. Every Kleen-Heet is equipped with a Minneapolis thermostat and thermometer. This thermometer is your check on the accuracy of Kleen-Heet automatic control.

## There's HEALTH in the Kleen-Heet-ed Home!

Seven out of ten winter ailments, doctors say, come from homes over-heated or under-heated—uneven, fluctuating temperatures indoors. Now all unnecessary! With Kleen-Heet you can have just the temperature you want—say 70°—constantly, uniformly, hour after hour. Let the children play where they will! No danger of chills or of over-heating.

That's why so many hospitals and schools prefer Kleen-Heet to old-fashioned coal. They value the cleanliness, the quiet, the safety from fires caused by "live" cinders—but above all, this even, healthful, dependable heat.

### When you want "just a little" heat

The days with a chill in the air, when you don't like to build a coal fire and can't control it if you do, think of the Kleen-Heet-ed home! Kleen-Heet turns itself on just long enough to warm up the house, then turns itself off. Think of the difference in comfort—of the work and waste if you heat up with coal—of the economy of the Kleen-Heet way!

In every sort of weather, through more than five years, Kleen-Heet has proved itself. In 20,000 homes from Miami to Winnipeg, users have found it as simple, as dependable, as trouble-free as their lights or water! In Chicago, home of the oil heating industry and the most competitive market in the world, more Kleen-Heets were installed last year than burners of any two other makes combined.

### For any size home

There are models of Kleen-Heet to fit every need, from bungalow to skyscraper. For steam, hot water, vapor, or hot air furnaces. You are sure of getting the most economical size for your home, with Kleen-Heet. Convenient terms make it easy to buy.

Shouldn't your family have this aid to comfort and health this winter? They can, if you act quickly. Learn what Kleen-Heet users have learned! Let us arrange for you to see Kleen-Heet in a home near yours. Not in the showroom, but on the job! Phone, or mail coupon—NOW! No obligation.

## Harold Lloyd in The Freshman

"—He made a flying tackle." Thus Harold, "Speedy and Spender," goat of the college, water boy for the team, had read how heroes are made! And he wanted to be a hero! Then his chance came! The last resort of a distracted coach! It was to die—for old man Time had his scythe on the whetstone—and Harold made his flying tackle—and he flew! Heels in the air! His heart beating like a trip-hammer! And nothing but T.N.T. and a can opener could have cut him loose from the big bruiser with the ball!

You'll Love Harold! "Harold Lamb," the Freshman, who dreamed of Gridiron Glory and Campus Conquests—and went to college loaded down with tennis racquets and ukuleles and misplaced ideas of how to be popular—and was only the laughing stock, until he met a girl, the girl who discovered the heart that beat beneath the funny sweater and hid the real boy within!

FRIDAY, NOVEMBER 13, 1925

CHRISTMAS SHOPPING

Do your Christmas shopping early. The stores are offering their finest wares. They also carry material which many a dainty housewife can make into most desirable Christmas presents.

Every Fourth of July we take a solemn vow that this year will see us do our Christmas shopping early. As Indian summer dawns we are still lapsing our self-imposed formula, "Do Your Christmas Shopping Early."

November comes, bringing December in its train, and we are still mumbering, but not very loud, something about shopping early to avoid the Christmas rush. About ten days before Christmas crowds of shoppers bump into us and we become aware of the shopping craze and that Christmas is just around the corner.

We rush to a printing office, that is if we are good, consistent home encouragers of home industry, and order a lot of Christmas cards printed. Frantically we seize our pen and pencil and endeavor to map out a shopping program.

In the meantime clerks at stores are getting weak-kneed and run down trying to wait on the fast accumulating crowds. And in that crowd you will find the man and woman who had resolved last Fourth of July to shop early.

Something has got to be done to enforce early shopping for Christmas. What's to be done? "Pass a law," says some lady who thinks the world can be set right in a minute by passing laws.

"Proclaim a shopping week like you proclaim a canned goods week, a better education week, a bring back the book you borrowed week, or pay your debts week, or something of the kind."

The situation is serious. Something must be done so Santa Claus gets full material to work on.

ARTIFICIALLY STIMULATING TRADE

EVERY town has had a taste of the artificial stimulation of trade, the giving of prizes to stir up business, etc., etc. These trade campaigns in which the giving away of automobiles and other prizes is featured are now under the ban, due to the ruling of Attorney General Hilton of Minnesota and Attorney General Shafer of North Dakota.

Acceptance of tickets is banned as much as the giving of tickets. The whole matter came to a head when Fargo and Moorhead, rivals for trade, put on trade campaigns and involved two states in the controversy.

In commenting on this style of "boosting" trade, the Verndale Sun says the lottery laws prevent it and a newspaper is not allowed in the mails which will carry advertising to such an effect nor even if the campaigns were not advertised in any manner, they will not be allowed. The law on this subject has been in dispute and Verndale has held two small events in the past few months being in ignorance of the law and not wishing to be outdone by other towns. When no places are allowed to have the events it will be much easier for all towns to refrain from the trade stimulators.

THE DISPATCH believes the best way to attract trade and keep it too is in legitimate newspaper advertising, and your home newspaper is the best for that. This thing of giving prizes must be paid for in the end and somebody must contribute to its cost. Better sell standard goods on their merits. Let the goods sold at reasonable prices do the attracting of customers and not a lot of prizes offered as a sort of side line.

MERELY "KEEPING SHOP"

THE Staples World calls attention to some merchants in Staples who seem to have an idea that a store is merely a place in which to keep shop, and adds the argument that advertising is needed in every line of business. The World states:

"Wouldn't it be just as well to let someone whose time is just a little less valuable come down in the morning and open up and close up at six while the merchant went to work at some other occupation where it was necessary to do something besides just wait for someone to buy?"

"A store is a place to do business in. A merchant if he is a real merchant, is constantly on the job, keeping his display windows looking fine, his stock neatly arranged and clean, his clerks are busy—the whole store looks like a real store and not a place where there was a vacant building and people thought something ought to be put there to keep the floor above warm."

"A merchant shouldn't go on the theory that everyone knows where his store is. They know where most of the stores in town are and they know where most of the stores in other towns are as well. A merchant shouldn't go on the theory that people know what they want and will pay over a ton or so of stuff trying to find it. Be a real live merchant in a real live town. Keep the store clean, bright and modern. Advertise anyway—we don't care, but advertise!"

MORRISON county has contributed \$2,000 to help defray expenses of a county agent for that county the coming year. The Pine River Sentinel Blaze comments on this action, saying "it would be a step in the right direction if the commissioners of Cass county saw fit to do likewise."

By changing the office from fee to salary basis, Governor Christianson has effected a \$9,500 saving in the office of Hennepin county boiler inspector. It is said that in some years fees of this office ran as high as \$14,000 annually.

SINCE women bobbed and shingled their hair you hear no more hair-pulling episodes in police or divorce court, neither is it possible to reproduce such a domestic scene in the movies.

WE scan many exchanges during the week and notice many of the towns of our vicinity send people to our hospitals for treatment.

WITH Thanksgiving Day just in the offing, not far away, present indications point to a good market on turkeys during the holiday season.

ADVERTISEMENTS ran so heavy in the St. Cloud Daily Times Thursday as to crowd out all the editorials.

Radio Aerial Broken, Boy Discovers His Body Is Excellent Substitute, Gets Musical Program

While Randall Cathcart, 14-year-old Oakland, Calif., boy, was trying to tune in recently he made the discovery that aerials are not necessary. The boy's aerial had been broken and by chance his hand touched the binding post. Instantly he heard the musical program he had been trying to tune in.

GRUENHAGEN COMPANY

Half the world is half asleep

It is terrible to feel all dragged out—to live from one day to the next in a constant state of weariness. Yet thousands do, because constipation is destroying their energy—even their interest in life. Only Kellogg's ALL-BRAN brings sure and safe relief from this disease.

"Poor Betty! She always looks tired"

BETTY was the office mystery. Once pretty, her beauty now lay masked behind an unwholesome complexion. Once vivacious, she now seemed eternally tired—a drooping figure of disappointment and dismay. Too bad she didn't realize that it was constipation which was stealing her strength.

But many men and women rid themselves forever of this devastating disease, by the simple, pleasant means of eating two tablespoonfuls of Kellogg's ALL-BRAN every day—or in chronic cases, with every meal.

As Kellogg's ALL-BRAN journeys through the system, its fiber remains unchanged. It is what doctors call a bulk food—a bulk food which sweeps the intestine clean—a bulk food which absorbs and carries moisture through the intestinal tract, stimulating natural, healthy action. Some-

thing habit-forming pills and drugs can never do.

Serve Kellogg's ALL-BRAN with milk or cream, sprinkled over cereals; cooked with hot cereals; in soups, or made into the many recipes given on the package. Delicious with fruit, baked apple, etc.

**Caution:** Only ALL-BRAN brings sure results. A part-bran product can only be partially effective. Kellogg's is the one, only and original ALL-BRAN. All grocers sell it. Buy a package today. If eaten regularly, it is guaranteed to bring permanent relief or the grocer returns the purchase price. Served in leading restaurants and hotels.

The original ALL-BRAN—ready-to-eat

## CHRISTMAS SHOPPING

Do your Christmas shopping early. The stores are offering their finest wares. They also carry material which many a dainty housewife can make into most desirable Christmas presents.

Every Fourth of July we take a solemn vow that this year will see us do our Christmas shopping early. As Indian summer dawns we are still lapsing our self-imposed formula, "Do Your Christmas Shopping Early."

November comes, bringing December in its train, and we are still mumbling, but not very loud, something about shopping early to avoid the Christmas rush. About ten days before Christmas crowds of shoppers bump into us and we become aware of the shopping craze and that Christmas is just around the corner.

We rush to a printing office, that is if we are good, consistent home encouragers of home industry, and order a lot of Christmas cards printed. Frantically we seize our pen and pencil and endeavor to map out a shopping program.

In the meantime clerks at stores are getting weak-kneed and run down trying to wait on the fast accumulating crowds. And in that crowd you will find the man and woman who had resolved last Fourth of July to shop early.

Something has got to be done to enforce early shopping for Christmas. What's to be done? "Pass a law," says some lady who thinks the world can be set right in a minute by passing laws.

"Proclaim a shopping week like you proclaim a canned goods week, a better education week, a bring back the book you borrowed week, or pay your debts week, or something of the kind."

The situation is serious. Something must be done so Santa Claus gets full material to work on.

## CHAPTER XV. (Continued)

Linton showed his contempt for this ridiculous assertion by silently pulling the bedding higher and snugly tucking it in. Jerry promptly elbowed him aside and pulled it lower. Tom made an angry gesture, and for a third time adjusted the covers to suit himself, whereupon Jerry immediately changed them to accord with his ideas.

Aggressively, silently, but without words this time, the partners argued the matter. They were glaring at each other, they had almost come to blows when, with a start, Jerry looked at his watch. Swiftly he possessed himself of the medicine-glass and spoon; to Tom he whispered:

"Quick! Lift her up." Linton refused. "Don't you know anything?" he queried. "Never move a sick person unless you have to. Give it to her as she lays."

"How you goin' to feed medicine out of a spoon to anybody layin' down?" the other demanded. "Easy!" Tom took the glass and the teaspoon; together the two men bent over the bed.

But Linton's hands were shaky; when he pressed the spoon to Rouletta's lips he spilled its contents. The girl rolled her head restlessly. "Pshaw! She moved."

"She never moved," Jerry contradicted. "You missed her." From his nostrils issued that annoying, that insulting, snort of derision which so sorely tried his partner's patience. "You had a fair shot at her, layin' down, Tom, and you never touched her."

"Maybe I'd have had better luck if you hadn't jiggled me."

"Hell! Who jiggled?"

"She—hi!" Once more Mr. Quirk had spoken aloud. "If you've got to holler, go down by the rapids."

After several clumsy attempts both men agreed that their patient had doubtless received the equivalent of a full dose of medicine, so Tom replaced the glass and spoon. "I'm a little out of practice," he explained.

"I thought you done fine," Jerry spoke with what seemed to be genuine commendation. "You got it in to her nose every time."

Tom exploded with wrath and it was Jerry's turn to command silence.

"Why don't you hire a hall?" the latter inquired. "Or maybe I better tree a 'coon for you so you can bark as loud as you want to. Family man! Huh!" Linton bristled aggressively, but the whisperer continued:

"One head of children don't make a family any more 'n one head of heifers makes a herd."

Tom paled; he showed his teeth beneath his gray mustache. Leaning forward, he thrust his quivering bearded face close to the hateful countenance opposite him. "D'you mean to call my daughter a heifer?" he demanded, in restrained fury.

"Keep them whiskers to yourself," Jerry snapped. "You can't pick a row with me, Tom; I don't quarrel with nobody. I didn't call your daughter a heifer, and you know I didn't. No doubt she would of made

a fine woman if she'd of grown up, but— Say! I bet I know why you lost her. I bet you poured so much medicine in her crib that she drowned."

"That ain't funny," the other rumbled. "If I thought you meant to call a member of my family a heifer—"

"You've called your wife worse 'n that. I've heard you."

"I meant everything I said. She was an old catamount and—"

"Prob'ly she was a fine woman," Jerry had a discourteous habit of interrupting. "No wonder she walked out and left you flat—she was human. No doubt she had a fine character to start with. So did I for that matter, but there's a limit to human endurance."

"You don't have to put up with me any longer than you want to," Linton stormed, under his breath. "We can get a divorce easy. All it takes is a saw."

"You made that crack once before, and I called your bluff!" Jerry's angry face was now outburst; only with difficulty did he maintain a tone inaudible to the sick girl. "Out of pity I helped you up and handed you back your crutches. But this time I'll let you lay where you fall. A hundred dollars a dozen for lemons! For a poor little sick girl! You ain't got the bowels of a shark!"

"It was your proposition!"

"It wasn't!"

"Some folks lie faster 'n a goat can gallop."

"Meaning me?"

"Who else would I mean?"

"Why don't you call me a liar and be done with it?"

"I do. It ain't news to anybody but you!"

Having safely landed his craft below the rapids, Poleon Doret hurried back to his tent to find the partners sitting knee to knee, face to face, and hurling whispered incoherencies at each other. Both men were in a poisonous mood, both were ripe for violence. They overflowed with wrath. They were glaring; they shook their fists; they were racked with fury; insult followed abuse; and the sounds that issued from their throats were like the rustlings of a corn-field in an autumn gale. Nor did inquiry elicit a sensible explanation from either.

"Heifer, eh? Drowned my own child, did I?" Tom ground his teeth in a ferocious manner.

"Don't file your tusks for me," Jerry chattered, "file the saw. We're goin' to need it."

"You men goin' cut dat boat in two again?" Poleon inquired with astonishment.

"Sure. And everything we've got."

It was Linton who spoke; there was a light of triumph in his eyes, his face was ablaze with an unholly satisfaction. "We've been drawing lots for twenty minutes, and this time—I got the stove!"

(To be continued)

READ THE WANT ADS DAILY

## Gold Leather Used as Millinery Decoration

The use of gold leather as a millinery decoration is of exceptional interest and since it is sponsored by the most important milliners of Paris will have an influence upon autumn and winter hat modes. One Paris milliner, who shows a number of hats modeled on the new tricorn line, edges the brims with gold leather which is in effective contrast with the color of the velvet used for their development. A black velvet tricorn has a wide flange of gold leather, while from another comes a novel shape, designed as the mosaic hat, and made of purple velvet cut out in modernistic design to show a lighter tone of velvet. All the edges are bound with gold leather.

## Rosewood Felt Hat and Bag

To accompany a smart little hat of rosewood felt there is an envelope bag of the same colored suede.

## Fancy Sleeves New

The bottoms of the new sleeves are very often embroidered or trimmed with circular ruffles.

## Tide in New York Harbor

The average rise and fall of tide in New York harbor is 4 feet 5 inches.

## Plaits Still Used by Some Paris Designers

This season's modes are by no means confined to flare and godet, says a fashion writer in the New York Times. Some of the best couturiers are showing exceedingly chic things in which plaits give ease at the bottom of the skirt. The plait has done much to popularize the plait, and this is varied in many attractive ways. The season's fabrics are particularly well adapted to the plaited model, for crepe and the new wool weaves respond to this treatment and keep their shape. The inverted plait is seen in many of the latest designs and is popular with women who wish to have a frock which appears to be flat, yet is released below the knee. The deep inverted plait is laid in front, directly at the back, or at each side of the skirt, to give an effect of floating panels.

An unusually clever little street frock of miboleen has the straight, slender lines and is laid in small plaits held into the shoulder seam in front. Beginning at the waist the material of the skirt is slashed to the hem with fine plaits inverted, giving the appearance of box plaits all the way round. Low about the hips a wide, soft belt is worn.

## Odd Phenomenon

The phenomenon known as the Solway moss disaster occurred on November 13, 1771, in a district of Cumberland, northern England, bordering on Scotland. A rank moss covering 400 acres, swelled under a heavy rainfall and rose to such a height above the level of the ground that at last it rolled forward like a torrent, sweeping before it houses and trees. It destroyed about 30 small villages.

## OUTSTANDING MAYTAG FEATURES

- 1 Washes faster.
- 2 Washes cleaner.
- 3 Largest hourly capacity in the world.
- 4 Most compact washer made—takes floor space only 25 inches square.
- 5 Cast aluminum tub—can't warp, rot, swell, split or corrode.
- 6 Easily adjusted to your height.
- 7 Clothes can be put in or taken out with the washer running.
- 8 Tub cleans itself.
- 9 All metal wringer. Self adjusting. Instant tension release.

For homes without electricity, the Maytag Gyraroom is available with Gasoline Multi-Motor attachment.

## REASONS FOR WORLD LEADERSHIP

# Every Housewife can afford a washer--

—NOW THAT she can buy permanent helpfulness, hygienically clean washings, and a method that is as easy on sheer fabrics as hand-washing.

—NOW THAT she can wash 50 lbs. of dry clothes per hour and have complete freedom from all hand-rubbing.

—NOW THAT she can buy a convenient, compact washer adjustable to all heights, with a 7-position, self-adjusting wringer.

These are some of the almost unbelievable advantages you get in the Maytag Gyraroom Washer. Try it—wash with it in your own home. Just telephone us and we will bring one to your home without obligating you in the least. If, then, it does not SELL ITSELF to you—we will take it away again.

Deferred Payments you'll never miss

# BIGGEST FISH IN BRAINERD LAKE REGION

## PERRY HDW. CO. OFFERS OFFICIAL FIGURES IN PROOF

COMPARES ITS "BIG FISH" CONTEST WITH DETROIT AND PARK RAPIDS

BLACK BASS, WALL-EYED PIKE, GREAT NORTHERN PIKE, CRAPPIES COMPARED

The Brainerd lake region led the Northern Minnesota lake district in the size of game fish taken during the past season, according to the Perry Hardware Company, which firm has official figures to prove this statement.

This company conducted a "big fish" contest during the summer just past, in which anglers were given prizes for exhibiting black bass, wall-eyed pike, great northern pike and crappies. The only rule in this contest was that any participating leave their big fish with the hardware firm for one day, where it was exhibited on ice, then returned to its owner.

Similar contests were staged at Detroit, Minnesota, and at Park Rapids, and according to the records of the Perry Hardware Company, Brainerd led the field in the weight of the fish entered. The weight of the entries in the three cities is given in the following interesting table:

BLACK BASS		
Brainerd	5 lbs. 12 oz.	
Park Rapids	5 lbs. 10 oz.	
Detroit	5 lbs. 2 oz.	
WALL-EYED PIKE		
Brainerd	13 lbs. 0 oz.	
Detroit	10 lbs. 13 oz.	
Park Rapids	8 lbs. 0 oz.	
GREAT NORTHERN PIKE		
Park Rapids	19 lbs. 12 oz.	
Detroit	17 lbs. 12 oz.	
Brainerd	17 lbs. 4 oz.	
CRAPPIES		
Brainerd	1 lb. 12 oz.	
Detroit	1 lb. 10 oz.	
Park Rapids	no entry.	

While it is shown by the official figures that Brainerd was at the foot of the list in the great northern pike class, the Perry Hardware Company states that a specimen of this variety was brought in for entry in the contest, which tipped the scales at an even 23 pounds, more than three pounds heavier than the big one taken at Park Rapids. But because its exhibitor would not conform with the requirements of the company's contest rules, and leave the big fish there for one day, it could not be entered for a prize, so the laurels in this class go to Park Rapids, with Brainerd at the foot of the list.

The Perry Hardware Company is now distributing the prizes among the winners, a majority of whom were summer visitors, many coming from outside the state. The prizes consist of fishing tackle, a \$14 split bamboo casting rod heading the list. The company is more than living up to its contest rules, by giving every entry that was not a prize winner, a small award in the form of artificial bait made by well known companies. This is not a part of the original plan, but so well pleased is the Perry Hardware Company with the results of its contest that it was decided to give all entrants an award which would repay them for making their entries.

## DEATH CASTS GLOOM OVER NOTRE DAME

JAMES POWERS, 19, DIED FROM BROKEN NECK RECEIVED IN FOOTBALL

FRESHMAN INJURED IN A SCRIMMAGE OF 10 DAYS AGO

South Bend, Ind., Nov. 13.—(UP)—Death today cast a gloom over the Notre Dame campus on the eve of homecoming when James Powers, 19, freshman, died from a broken neck suffered in football scrimmage ten days ago.

Powers, cheerful to the last and fighting a valiant battle for life, has been paralyzed since the accident. An operation performed a week ago was expected to save his life and Powers showed some sign of improvement.

He was the son of Frank Powers, Chicago contractor, and the body will be taken to Chicago for burial. Daily prayers for the recovery of the youth have been offered at college masses.

Players and students will wear mourning bands at homecoming Saturday in tribute to the youth.

### Get a Good Start

A good breathing exercise taken in the morning before an open window will give you a good start for the day. Standing with feet together and hand stretched above head, bend back slowly at waist, expelling all air from lungs. Next come forward, inhaling and bring arms down in a wide circle to your sides. Repeat a dozen or more times, as you see fit.

## MUDDY FIELDS MAY BRING MANY FOOTBALL UPSETS

RAIN THREATENS ALL ALONG EASTERN SEABOARD TOMORROW

YALE WILL BE A FAVORITE TO BEAT THE PRINCETON ELEVEN

By HENRY L. FARRELL  
United Press Staff Correspondent  
New York, Nov. 13.—Bad weather and muddy fields, which have produced so many startling surprises so far this season may result in more form reversals in tomorrow's big football games.

Weather forecasts threaten rain along the eastern seaboard and reports from many major battle fields indicate that muddy fields will prevail even if it should not rain any more.

Field conditions will be a factor of the greatest importance in the Dartmouth-Chicago game, which is perhaps the most important game of the day, since Dartmouth is the only outstanding team of the year that has not been defeated.

There are Alabama and Missouri, for instance, that have a clean slate, but their schedules and their scores have not given them the national prominence that Dartmouth so far has enjoyed.

Chicago has one of the biggest and most powerful defensive teams of the year and it is quite certain that Dartmouth would not have had anything of a cinch on a dry field and if the game is played in mud most anything can happen. Dartmouth has a fine running attack, of course, but the team's greatest reliance is along forward passing attack. Swede Oberlander can throw a pass 50 yards with the accuracy and low trajectory of a major league baseball catcher, but he cannot do it as well with a muddy ball.

Against the stout defense that is an inheritance at Ohio State, Michigan will be handicapped again tomorrow if the field conditions are not good and the odds will not be so heavy against Ohio State.

Yale will be a heavy favorite to beat Princeton in the second of the "big three" games, because reports from New Haven today indicated that the field was sure to be sloppy.

Columbia will have very little chance to defeat the Army on a soft field and Pittsburgh will experience the same difficulties with Pennsylvania.

## PUNCH CATCHES 200 RATS IN MONTH, KEEPS SUBWAY CLEARED FOR CONTRACTOR

Punch's employer says 200 rats is a poor month's work for Punch, but that the official rat-catcher in the subway being built in Brooklyn, N. Y., is handicapped by lack of rodents. Punch has been busy since work on the new tube was started and has gotten the situation so well in hand that rats are choosing other living quarters.

## Bill McKenzie, Recruited By Boxing Promoter From Canadian Lumber Camp, Is 238-Pounder

McKenzie, who weighs just 238 pounds, stands 6 feet 1 inch in his box and is only 23 years old, was discovered by Lenny Austin, Seattle boxing manager and promoter, in a British Columbia lumber camp. McKenzie had never done any boxing, but under Austin's training he has shown fair form and he is unusually fast on his feet for such a big man. He is pictured with a bantam weight attached to his training camp in Seattle.

## U. S. CAVALRY TEAM FAVORITES GARCIA KNOCKS OUT KOCHANSKY

Toronto, Ont., Nov. 13.—(UP)—The United States cavalry team of officers from the riding school at Fort Riley, Tex., are likely favorites over the creek team from Belgium, France and Canada, in the international jumping championships at the Royal Winter fair, opening in Toronto tonight.

## RED GRANGE CONQUERED EAST

By HENRY L. FARRELL  
(United Press Sports Editor)  
New York, Nov. 13.—When Sam Hildreth, trainer of the rich Roncoas Stable, was saddling the great Zev for his memorable race against Papyrus, winner of the English Derby, Jack McAuliffe, the veteran retired lightweight champion, said to him:

"It's too bad the going is so bad out there. It won't be a race."  
Hildreth took a look at the course, fetlock deep in mud and replied:  
"Bosh, Jack! You know better than that. A real thoroughbred can run in anything. Watch my fellow go."

If Hildreth's philosophy of the track can be applied to the football field—Red Grange is a real thoroughbred.

Football has no form sheets like race addicts have to assist them in picking the right horse, but weaknesses of players can be recorded by observation.

For three years the middle west, perhaps the warmest hotbed of football in the country, knew that Red Grange (it is not necessary further to identify him) was one of the greatest of all football players.

But, the Western conference rivals of Illinois would say—"He can't go in mud. He has to have a dry track."

Grange came east a week before last to play Pennsylvania. He brought ten other football players with him but they were lost in the glare of publicity that attended the first appearance of a player whose middle western feats had likened him to a story-book hero.

The day before the game the Illinois squad arrived in Philadelphia to find the historic city under a blanket of snow. It was a wet pre-season snow and the playing field at Franklin Field was being turned into a mud puddle. "It's too bad," Bob Zuppke, the genial Illinois coach said. "This was the game that I have been living for. I wanted a dry field to show the east that our Red is not a false alarm. That boy has been living and working a year for this one game. This mud is an awful blow."

Zuppke's mournful words and the gloom of the entire Illinois squad did not cause a change in the market, however. Penn student and Penn alumni had heard that Grange couldn't go in the mud and they dumped piles of money into a pool and placed it that Penn would win. This was tantamount to a bet that Red Grange would be stopped.

Six minutes after the opening whistle blew, Pennsylvania rooters and other thousands who contributed their presence to a crowd of 65,000, knew that Grange wasn't to be stopped even in a sea of slime.

After the Penn defense had been demoralized for six minutes by breaking through the line on Grange and finding that he didn't have the ball, Grange took the ball and ran 60 yards through the entire Penn team for a touchdown. On the very next play, Grange took the kickoff and ran 60 yards again to Penn's 25-yard line and another touchdown went over just as fast as the Illinois team could line up.

To repeat the other things that Grange pulled in that game would be a bore. He did everything that a great football player could do. He was so unstoppable that one expert said the spectators behind the goal posts were concerned about their own safety.

The popular sorrel-topped hero was taken to the bosom of the east with almost as much enthusiasm as he had been adopted by the middle west. When he left the game a few minutes before the end, he was given a demonstration that could be likened to nothing this writer ever has seen. Even the Penn rooting section gave him a rising cheer. It may be, however, that the Penn students were shouting their joy that he was leaving. The Illinois coach was the only one on the field who could stop him.

Several of the eastern critics said that Grange couldn't be compared to Thorpe, Heston or Coy because he was only a ball-carrier. This opinion was the result of a lack of information. They were not aware that Grange is a brilliant kicker and a great pass thrower and that he could be a great defensive man and an all-around player greater than any of them if his coach would let him.

Zuppke said after the Pennsylvania game that Grange was saved all season to be at his best against Penn. Illinois was willing to sacrifice every other game on the schedule to beat Penn. He said that he wouldn't allow him to mix in any kind of a play when he wasn't carrying the ball. He never is used for interference and isn't allowed to catch a punt that comes back to him.

The hold that Grange has won on the imagination of the public is the same that Babe Ruth had in his prime. Grange is the dream of youngsters and the ideal of those who wanted to be what he is.

Red's sweater, No. 77, a mud-caked jersey, is to be placed in the trophy room at Illinois to memorialize his gallantry on Franklin Field. Since Red was a freshman no other player has worn 77 and no other player ever will wear it at Illinois.

No greater tribute could be paid to any football player and the glorious thing about it is that he richly deserves it.

## FIRPO PLANS ON COMING BACK TO WIN TITLE

TAME BULL OF THE PAMPAS BELIEVES HE IS FIT FOR FIGHTING

WANTS TO MEET BARTLEY MADDEN, RENAULT, TUNNEY, ETC.

By J. B. POWERS  
United Press Staff Correspondent  
Buenos Aires, Nov. 13.—Luis Angel Firpo, South American heavyweight, will return to the United States in March for another effort to win the world's heavyweight championship, he said in an interview today.

He said he will go back to the United States in better physical condition than he has been in years as a result of four months of light training and that he will have no business worries to trouble him.

He said he now weighs 225 pounds and that he can take off more flesh when he starts hard training. Since his return from the United States he had put his business affairs in good shape and has made several films for South American producers.

"I am going back to New York under the general direction of Tex Rickard, with the ambition to fight my way through all the contenders and earn the chance for another championship fight," he said.  
"I want to meet Bartley Madden, Jack Renault, Gene Tunney, Harry Wills and then Dempsey. I am willing to meet any other fighters suggested because I know I will have to prove my right for another chance."

"The opportunity now for a comeback looks especially good to me. If Dempsey ever meets Wills he will win if he is anything like the Dempsey I fought. I was in bad shape when I fought Wills. I had not slept eight hours in seven days due to worry over Canon Chase and several suits, but at that Wills never hurt me once. He cannot hit. His reputation for punching is only a reputation."

"It is my opinion that Dempsey is through as the champion and if he ever fights again he cannot withstand much punishment. Tunney has not the size and I could lick Renault when I was a novice. The stage looks set for me."

## NORTHLAND TRANSPORTATION CO. MINNEAPOLIS, MINN.

BIGGEST FISH IN BRAINERD LAKE REGION

PERRY HDW. CO. OFFERS OFFICIAL FIGURES IN PROOF

COMPARES ITS "BIG FISH" CONTEST WITH DETROIT AND PARK RAPIDS

BLACK BASS, WALL-EYED PIKE, GREAT NORTHERN PIKE, CRAPPIES COMPARED

The Brainerd lake region led the Northern Minnesota lake district in the size of game fish taken during the past season, according to the Perry Hardware Company, which firm has official figures to prove this statement.

This company conducted a "big fish" contest during the summer just past, in which anglers were given prizes for exhibiting black bass, wall-eyed pike, great northern pike and crappies. The only rule in this contest was that any participating leave their big fish with the hardware firm for one day, where it was exhibited on ice, then returned to its owner.

Similar contests were staged at Detroit, Minnesota, and at Park Rapids, and according to the records of the Perry Hardware Company, Brainerd led the field in the weight of the fish entered. The weight of the entries in the three cities is given in the following interesting table:

BLACK BASS	
Brainerd	5 lbs. 12 oz.
Park Rapids	5 lbs. 10 oz.
Detroit	5 lbs. 2 oz.
WALL-EYED PIKE	
Brainerd	13 lbs. 0 oz.
Detroit	10 lbs. 13 oz.
Park Rapids	8 lbs. 0 oz.
GREAT NORTHERN PIKE	
Park Rapids	19 lbs. 12 oz.
Detroit	17 lbs. 12 oz.
Brainerd	17 lbs. 4 oz.
CRAPPIES	
Brainerd	1 lb. 12 oz.
Detroit	1 lb. 10 oz.
Park Rapids	no entry

While it is shown by the official figures that Brainerd was at the foot of the list in the great northern pike class, the Perry Hardware Company states that a specimen of this variety was brought in for entry in the contest, which tipped the scales at an even 23 pounds, more than three pounds heavier than the big one taken at Park Rapids. But because its exhibitor would not conform with the requirements of the company's contest rules, and leave the big fish there for one day, it could not be entered for a prize, so the laurels in this class go to Park Rapids, with Brainerd at the foot of the list.

The Perry Hardware Company is now distributing the prizes among the winners, a majority of whom were summer visitors, many coming from outside the state. The prizes consist of fishing tackle, a \$14 split bamboo casting rod heading the list. The company is more than living up to its contest rules, by giving every entry that was not a prize winner a small award in the form of artificial bait made by well known companies. This is not a part of the original plan, but so well pleased is the Perry Hardware Company with the results of its contest that it was decided to give all entrants an award which would repay them for making their entries.

RED GRANGE CONQUERED EAST

By HENRY L. FARRELL  
(United Press Sports Editor)  
New York, Nov. 13.—When Sam Hildreth, trainer of the rich Roncoas Stable, was saddling the great Zev for his memorable race against Papyrus, winner of the English Derby, Jack McAuliffe, the veteran retired lightweight champion, said to him:

"It's too bad the going is so bad out there. It won't be a race."  
Hildreth took a look at the course, fetlock deep in mud and replied:  
"Bosh, Jack! You know better than that. A real thoroughbred can run in anything. Watch my fellow go."

If Hildreth's philosophy of the track can be applied to the football field—Red Grange is a real thoroughbred.

Football has no form sheets like race addicts have to assist them in picking the right horse, but weaknesses of players can be recorded by observation.

For three years the middle west, perhaps the warmest hotbed of football in the country, knew that Red Grange (it is not necessary further to identify him) was one of the greatest of all football players.

But, the Western conference rivals of Illinois would say—"He can't go in mud. He has to have a dry track."

Grange came east a week before last to play Pennsylvania. He brought ten other football players with him but they were lost in the glare of publicity that attended the first appearance of a player whose middle western feats had likened him to a story-book hero.

The day before the game the Illinois squad arrived in Philadelphia to find the historic city under a blanket of snow. It was a wet pre-season snow and the playing field at Franklin Field was being turned into a mud puddle.

"It's too bad," Bob Zuppke, the genial Illinois coach said. "This was the game that I have been living for. I wanted a dry field to show the east that our Red is not a false alarm. That boy has been living and working a year for this one game. This mud is an awful blow."

Zuppke's mournful words and the gloom of the entire Illinois squad did not cause a change in the market, however. Penn student and Penn alumni had heard that Grange couldn't go in the mud and they dumped piles of money into a pool and placed it that Penn would win. This was tantamount to a bet that Red Grange would be stopped.

Six minutes after the opening whistle blew, Pennsylvania rooters and other thousands who contributed their presence to a crowd of 65,000, knew that Grange wasn't to be stopped even in a sea of slime.

After the Penn defense had been demoralized for six minutes by breaking through the line on Grange and finding that he didn't have the ball, Grange took the ball and ran 60 yards through the entire Penn team for a touchdown. On the very next play, Grange took the kickoff and ran 60 yards again to Penn's 25-yard line and another touchdown went over just as fast as the Illinois team could line up.

To repeat the other things that Grange pulled in that game would be a bore. He did everything that a great football player could do. He was so unstoppable that one expert said the spectators behind the goal posts were concerned about their own safety.

The popular sorrel-topped hero was taken to the bosom of the east with almost as much enthusiasm as he had been adopted by the middle west. When he left the game a few minutes before the end, he was given a demonstration that could be likened to nothing this writer ever has seen. Even the Penn rooting section gave him a rising cheer. It may be, however, that the Penn students were shouting their joy that he was leaving. The Illinois coach was the only one on the field who could stop him.

Several of the eastern critics said that Grange couldn't be compared to Thorpe, Heston or Coy because he was only a ball-carrier. This opinion was the result of a lack of information. They were not aware that Grange is a brilliant kicker and a great pass thrower and that he could be a great defensive man and an all-around player greater than any of them if his coach would let him.

Zuppke said after the Pennsylvania game that Grange was saved all season to be at his best against Penn. Illinois was willing to sacrifice every other game on the schedule to beat Penn. He said that he wouldn't allow him to mix in any kind of a play when he wasn't carrying the ball. He never is used for interference and isn't allowed to catch a punt that comes back to him.

The hold that Grange has won on the imagination of the public is the same that Babe Ruth had in his prime. Grange is the dream of youngsters and the ideal of those who wanted to be what he is.

Red's sweater, No. 77, a mud-caked jersey, is to be placed in the trophy room at Illinois to memorialize his gallantry on Franklin Field. Since Red was a freshman no other player has worn 77 and no other player ever will wear it at Illinois.

No greater tribute could be paid to any football player and the glorious thing about it is that he richly deserves it.

FIRPO PLANS ON COMING BACK TO WIN TITLE

TAME BULL OF THE PAMPAS BELIEVES HE IS FIT FOR FIGHTING

WANTS TO MEET BARTLEY MADDEN, RENAULT, TUNNEY, ETC.

By J. B. POWERS  
United Press Staff Correspondent  
Buenos Aires, Nov. 13.—Luis Angel Firpo, South American heavyweight, will return to the United States in March for another effort to win the world's heavyweight championship, he said in an interview today.

He said he will go back to the United States in better physical condition than he has been in years as a result of four months of light training and that he will have no business worries to trouble him.

He said he now weighs 225 pounds and that he can take off more flesh when he starts hard training. Since his return from the United States he had put his business affairs in good shape and has made several films for South American producers.

"I am going back to New York under the general direction of Tex Rickard, with the ambition to fight my way through all the contenders and earn the chance for another championship fight," he said.

"I want to meet Bartley Madden, Jack Renault, Gene Tunney, Harry Wills and then Dempsey. I am willing to meet any other fighters suggested because I know I will have to prove my right for another chance."

"The opportunity now for a comeback looks especially good to me. If Dempsey ever meets Wills he will win if he is anything like the Dempsey I fought. I was in bad shape when I fought Wills. I had not slept eight hours in seven days due to worry over Canon Chase and several suits, but at that Wills never hurt me once. He cannot hit. His reputation for punching is only a reputation."

"It is my opinion that Dempsey is through as the champion and if he ever fights again he cannot withstand much punishment. Tunney has not the size and I could lick Renault when I was a novice. The stage looks set for me."

## DISTRICT COURT PROCEEDINGS

Defendants Found Guilty in State vs  
Wm. Carson And John J.  
Courtney

### LIQUOR CASE TRIED TODAY

Louis Raymond Charged With Trans-  
portation of Intoxicating  
Liquor by Automobile

In district court the jury in the case of the state against William Carson and John J. Courtney, charged with assault, found the defendants guilty as charged. Olson Skau was foreman of the jury.

Peter K. Peterson was before the court on Thursday evening on an information charging abandonment. He was arraigned and pleaded guilty. The court sentenced him to imprisonment in the state prison at Stillwater, but execution of the sentence was suspended upon condition that Peterson pays the sum of \$30 per month for the support of his child, payments to be made to the clerk of the district court on the 10th of December, 1925, and on the 10th of each succeeding month until further order from the court.

The case on trial Friday was that of the state against Louis Raymond, charged with the transportation of intoxicating liquor by automobile along Trunk Highway No. 35. The jurors in this case are Fred A. Hanson, L. M. Magnuson, Mrs. Louis Favron, Ephraim Harrison, Olson Skau, Wesley Curo, George Hughes, Maude Williams, Ed. Butterfield, John Cox, Rev. A. G. Patterson and Carl Marohn.

### INFANT SON DIED

Mr. and Mrs. Wm. Codner Mourn  
Loss of Son, Joseph J.  
Codner

Joseph J. Codner, infant son of Mr. and Mrs. William Codner, passed away early this Friday morning at the family home, 1309 O street, Northeast. The child was born April 10th, 1925.

The funeral will be held at Jenkins on Sunday afternoon, and interment made in the cemetery at that village.

### Christian Endeavor

The Christian Endeavor society of the Swedish Bethany church will resume their winter meetings, starting at 6:30 o'clock next Sunday evening. A list of leaders has been prepared and Miss Florence Swanson, the president, will be the first leader. Everyone is welcome, and an interesting time is assured all who attend.

## RADIO CLUB ELECTS OFFICERS

"The Brainerd Radio Association" is  
Agreed Upon as Official  
Title

### C. W. HOFFMAN PRESIDENT

Julius Viken Vice President, M. E.  
Hitch Secretary, C. Bruhn  
Treasurer

"The Brainerd Radio Association" was the name selected for the new radio club which was formally organized at a meeting of radio fans at the Chamber of Commerce on Thursday evening. A preliminary meeting was held last week when plans were made for completing the organization.

The first business transacted at Thursday evening's meeting was that of electing permanent officers, and the following were chosen to head the association for the coming year:

President—C. W. Hoffman.  
Vice President—Julius Viken.  
Secretary—M. E. Hitch.  
Treasurer—C. Bruhn.

The president was instructed to appoint a member from each ward in the city to act as a chairman of a membership committee for the purpose of making a house-to-house canvass for new members of the association, and it is hoped that each radio owner will evidence his interest in the work of the club by becoming affiliated with it. These ward chairmen are:

First ward—Iver Hagen.  
Second ward—P. J. Wolvert.  
Third ward—Charles Burton.  
Fourth ward—Bud Eekholm.  
Fifth ward—Dr. C. A. Nelson.

A membership fee of \$1 for owners of radio receiving sets, and \$5 for radio dealers was established. This money is to be used for the building and maintaining of an outfit to locate any local interference, so that the fans may get better radio reception. Everett McQuillin was elected chief trouble shooter, and was instructed to build an outfit at once.

A meeting of officers and ward chairmen has been called for next Thursday evening at the home of C. Bruhn, 208 North Broadway, to perfect plans for the coming membership drive.

Regular meetings are to be held each month at the call of the president, and will be announced as they are called.

There were about 50 in attendance at Thursday night's meeting, and all were very enthusiastic over the prospects of the new club and the good that can be accomplished by such an association. It is hoped that each owner of a radio set will join this club, as well as all others who are interested in radio.

## ST. MATHIAS P. T. A. MEETING

Instructive Radio Demonstration and  
Radio Program is  
Staged

### BRAINERD ROTARIANS SPEAK

C. N. Erickson Presented Box of  
Apples to the  
Gathering

The parent-teachers association of school district No. 84, St. Mathias, held an exceptionally interesting meeting on Wednesday night, November 11th, at the school house in that district.

An instructive radio demonstration, which also combined an excellent program received by radio, was staged by the Woodhead Motor Company, and was much appreciated.

A. G. Trommald, H. D. Hoffman and C. N. Erickson, of the Brainerd Rotary club, attended the meeting and gave short talks. Mr. Erickson presented the gathering with a box of fine apples, with the admonition that "An apple a day keeps the doctor away," which came in very appropriately following a health talk by the county nurse.

One of the features of the evening was supplied by a portable motion picture machine through the courtesy of the Woodhead Motor Co. A series of health films were presented and explained by Miss Thora Ingebritson, county nurse, and another series on good roads and better farming by the Ford Motor company.

E. G. Roth, county agent, was the speaker of the evening, and gave an interesting address on farm conditions.

A social hour followed the program, refreshments being served by the ladies.

## HURBERT CARLIN CANNOT COME

Pianist Cancels Engagement, Miss  
Marie Schloss Sub-  
stituted

### CARLIN SUDDENLY TAKEN ILL

Miss Schloss Was Pianist With Trio  
Heard Here Last  
Year

Word has just been received that Hubert Carlin, artist who was to have appeared in concert at the meeting of the Brainerd Musical club on Saturday afternoon, is ill and will be unable to come to the concert at this time.

However, Miss Marie Schloss, whom the club members will recall as the pianist with the Passmore trio last year, will be substituted in Mr. Carlin's place, and will be heard in recital on Saturday afternoon.

While Mr. Carlin's illness will come as a keen disappointment to music lovers of Brainerd, still it may be possible to hear him later in the season, in conjunction with one of the coming programs, and all members of the musical club will be very much pleased to hear Miss Schloss at meeting on Saturday.

## TRUNK HIGHWAYS IN GOOD SHAPE

Minnesota trunk highways in general are reported in good condition today in the weekly bulletin issued by the state highway department.

Maintenance forces are carrying on the fight to insure smooth surfaces when the winter freeze-up occurs. The patrolmen may be continued on part time during the winter in the campaign to keep trunk routes open where traffic is heavy enough to justify the expense.

The bulletin giving conditions as of today, on the 7,000-mile system of Babcock roads marked with official numbers on yellow stars follows in part:

T. H. No. 2—Duluth, Brainerd, Wadena, Detroit and Moorhead—264 miles—Duluth, good—Mortley, fair—Wadena, good—Moorhead.

T. H. No. 18—Elk River, Milaca, Garrison and Brainerd—102 miles—All good.

T. H. No. 19—Brainerd, Walker and Cass Lake—97 miles—All good.

T. H. No. 27—St. Cloud, Little Falls and Brainerd—66 miles—St. Cloud—paved—Belle Prairie—fair—25 mile detour—Brainerd.

## NEW LAMP BURNS 94% AIR

Beats Electric or Gas

A new oil lamp that gives an amazingly brilliant, soft, white light even better than gas or electricity, has been tested by the U. S. Government and 35 leading universities and found to be superior to 19 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up; is simple, clean, safe. Burns 94% air and 6% common kerosene (coal oil).

The inventor, J. E. Johnson, 609 W. Lake St., Chicago, Ill., is offering to send a lamp on 10 days' FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him today for full particulars. Also ask him to explain how you can get the agency, and without experience or money make \$250 to \$500 per month.

## BELL RINGERS HERE TOMORROW

For a Concert at the First Methodist  
Church, Starting at 8:15  
O'clock

### LOCAL TALENT ON PROGRAM

Five Players Have Devoted Many  
Years in Developing Hand  
Bell Music

Tomorrow evening the Scandinavian Bell Ringers will give one of their remarkable exhibitions of hand bell ringing at the First Methodist church, under the auspices of the Swedish Bethany church.

The press, the critics and the public in all cities in which these men have played, have been unanimous in their praise of the surprising beauty and charm of the music extracted from the 189 bells they play. In fact, their work is a revelation to all who hear them of the possibilities, never before suspected, lying latent in bells.

For years these five men players have devoted all their energies to developing bell music and the range of their achievements covers the whole gamut of instrumental musical accomplishments. In order to obtain this end, the bells which they use had to be specially made in accordance with specifications prepared by these players after years of experiment and effort.

Local talent on the program will be Miss Cora Rickard who will sing "To the Sun" and "I Know," and Miss Esther Forestrom singing "Evening Brings Rest and You"; a reading, "Billy Brad and the Forbidden Fruit," by Miss Edna Anderson. Miss Lorraine Morrison is accompanist for both singers.

Only a few seats in the reserved section remain unsold. Back seats will be sold at the church.

### IN MUNICIPAL COURT

Night Session Was Held Tuesday,  
Wednesday Being Armistice  
Day

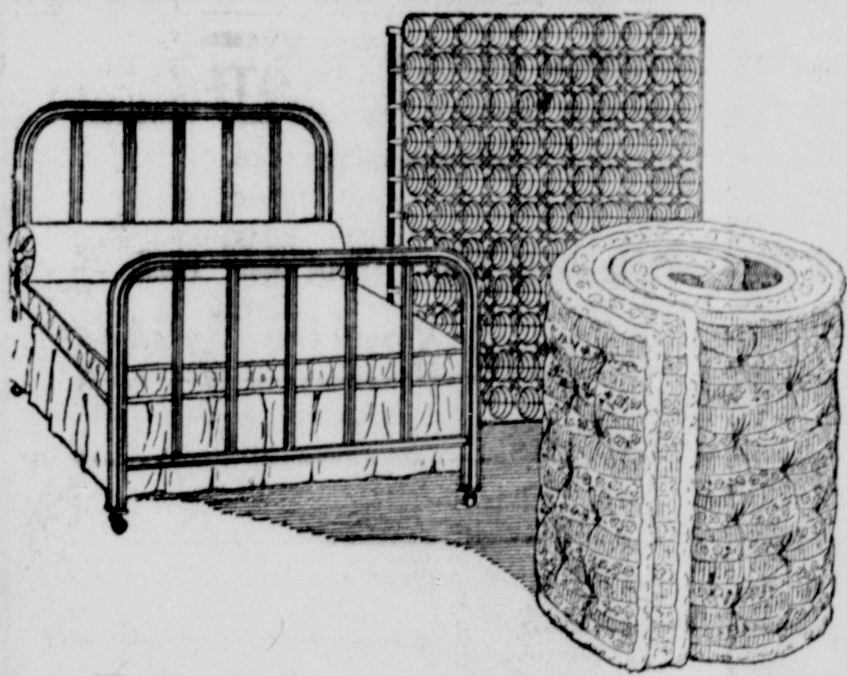

In municipal court Thursday, Anton Setula plead guilty to a charge of intoxication, and was fined \$20.

C. H. Turner plead guilty to a charge of violating the state game laws, and was fined \$10 and costs amounting to \$4.

A night session of the court was held on Tuesday evening, to hear a case which could not otherwise have been tried until Thursday, since Wednesday was Armistice day and a legal holiday.

M. A. Lemmer was tried at this night session on a charge of selling intoxicating liquor. The case was dismissed on motion of the defendant's attorney on the grounds that there was no probable cause shown. A second charge against Mr. Lemmer for selling liquor was also dismissed on motion of counsel for the defendant.

## BUICK DISTRICT SALES MEETING

Buick Dealers of This Section of  
State Met at Imgrund  
Garage

### 15 DEALERS WERE PRESENT

Meeting Was Sponsored by Pence  
Auto Company of  
Minneapolis

A district sales meeting of Buick dealers in this section of the state was held in the salesroom of the Imgrund Auto Company on Thursday. About 15 dealers in the Brainerd district were in attendance.

This meeting was sponsored by the Pence Auto Company, of Minneapolis. Buick distributors throughout the Northwest. The district sales manager and several assistants were in charge of the meeting.

A standard Buick automobile chassis was the center of the conference, and its parts were explained and demonstrated by experts, showing the superiorities of this car over many others in its class.

These sales conferences are being conducted throughout the Pence Auto Company's territory, in a campaign to acquaint the dealers with the strong points favoring the Buick. Today a similar meeting is being held at Fargo, N. D. All dealers are very enthusiastic about the success of the meetings and the many points of merit the Buick boasts.

## BUICK DISTRICT SALES MEETING

Buick Dealers of This Section of State Met at Imgrund Garage

15 DEALERS WERE PRESENT

Meeting Was Sponsored by Pence Auto Company of Minneapolis

A district sales meeting of Buick dealers in this section of the state was held in the salesroom of the Imgrund Auto Company on Thursday. About 15 dealers in the Brainerd district were in attendance.

This meeting was sponsored by the Pence Auto Company, of Minneapolis. Buick distributors throughout the Northwest. The district sales manager and several assistants were in charge of the meeting.

A standard Buick automobile chassis was the center of the conference, and its parts were explained and demonstrated by experts, showing the superiorities of this car over many others in its class.

These sales conferences are being conducted throughout the Pence Auto Company's territory, in a campaign to acquaint the dealers with the strong points favoring the Buick. Today a similar meeting is being held at Fargo, N. D. All dealers are very enthusiastic about the success of the meetings and the many points of merit the Buick boasts.

# "CORN CRISIS" NOT FEARED BY THE FARMER

EASTERN FINANCIAL CIRCLES APPARE UNUSUALLY ALARMED

FARMERS THROUGHOUT CORN BELT PAYING OFF MUCH INDEBTEDNESS

By RICHARD C. WILSON  
United Press Staff Correspondent  
Lincoln, Neb., Nov. 13.—The farmer of the great American corn belt is not showing great alarm over the "impendent corn crisis" feared in eastern financial circles.

While not yet prosperous, the farmers of the corn belt fear no great financial losses from 60 cents corn, which is expected shortly, Samuel McKelvie, farm journal publisher and widely known agricultural expert, declared in an exclusive interview with the United Press today.

McKelvie, former governor of Nebraska, emphatically repudiated reports received by him from eastern newspapers that the decline in the price of corn is causing an alarming increase in the number of bank failures in the corn belt.

"There have been numerous bank failures in Iowa, South Dakota and other states during the past month," McKelvie said. "However, these cannot be attributed to worthless farm securities."

"Banks in the corn belt are just recovering from an era of mismanagement. It is a wonder to me that even more have not collapsed."

To substantiate the agriculturist's viewpoint the United Press obtained the opinion of S. H. Burnham, president of the First National Bank of Lincoln. For years Burnham has been an advisor to Nebraska farmers.

"Farmers throughout the corn belt are paying off more of their indebtedness this year than since 1920," Burnham vouched. "I cannot see how it is possible to call the present outlook a crisis."

McKelvie pointed out that if corn prices slump, the farmers, most of whom are diversified farmers, will feed cattle corn over a longer period than if corn prices remained at a high level.

"Banks in Iowa and Nebraska have reported fewer farm loans this fall than in the past five years and recently Omaha banks announced they held an abundance of money to loan to Iowa and Nebraska farmers," McKelvie said.

## CHICAGO LIVESTOCK

Chicago, Nov. 13.—(By U. S. B. A.)  
—CATTLE—Receipts, 3,000. Market: Lower; grade fat steers, mostly common kinds predominating, market active, 25c up; choice descriptions absent; bulk fat steers \$7.50@9; few loads \$9.50 and better; best yearlings \$11.50; fat she stock strong; vealers steady, 25c lower, mostly \$11 and below to packers; other classes steady.

## SHORTS SCRAMBLED TO COVER

New York, Nov. 13.—Wall street had no grounds for complaint regarding the market's response to the continuance of the New York bank rate at 3½ per cent. With the fear of an increase removed, shorts scrambled to cover and fresh buying made its appearance on an enormous scale resulting in trading at rapidly rising prices, practically as heavy as the volume which accompanied Tuesday's drastic decline.

Speculative enthusiasm was revived by the development of aggressive buy-

ing activities in the standard rails. With many important dividend increases in prospect representative issues of this class were in urgent demand. Atlantic Coast Line soared sensationally, attaining the highest level on record while New York Central reached its best price since 1919 and B. & O. sold at best figures reached since the early days of the war. The market closed higher.

## TRANSACTIONS EXCEED 3,000,000 SHARES

New York, Nov. 13.—(UP)—For the second time this year transactions on the New York Stock exchange exceeded the 3,000,000 shares mark when transactions today totalled 3,058,900. It was the fifth time in the history of the exchange that such a mark was attained. The mark was attained today when a heavy flood of buying orders followed the restoration of the public's confidence in the credit situation, aided by a number of fresh orders.

**Valuable Discovery**  
Stearine (from stear, suet) is that part of oils and fats which is solid at common temperature. The nature of these substances was first made known by Chevreul in 1823, who showed that they were compounds of peculiar acids with a base termed glycerine.

## AMUSEMENTS

"Desert Flower" Sees "Sally" Film  
Colleen Moore, First National star, while convalescing in her beautiful home in Los Angeles from injuries sustained while filming scenes for "The Desert Flower" on location,

Colleen Moore in "The Desert Flower"

viewed the first showing ever made of the completed production of "Sally," her previous vehicle. Miss Moore injured several vertebrae and neck tendons in falling from a speeding handcar used in "The Desert Flower," which will be

shown at the Lyceum theatre next Sunday and Monday.

Harold Lloyd in "The Freshman" at New Park

When Harold appeared at his own party in his brand new Tuxedo, hot off the tailor's pressing board, all was not seemed as it seemed to be! Due to the peculiar dizzy spells with which the college tailor was afflicted, Harold was forced to attend the Fall Frolic in a \$38.50 tuxedo that was only basted to gether. And any home dressmaker can tell you that basting is a form of sewing not to be boasted about!

The strain Harold put upon his basted suit, the efforts of the tailor to keep him sewed into his clothes, and Harold's efforts to avoid detection and keep away from the co-ed flappers long enough to get a few stitches in time to prevent a social error supply some of the fun for "The Freshman." Harold Lloyd's newest comedy feature showing at the New Park tonight, Saturday and Sunday.

"CORN CRISIS" NOT FEARED BY THE FARMER

EASTERN FINANCIAL CIRCLES APPEAR UNDOUBTLY ALARMED

FARMERS THROUGHOUT CORN BELT PAYING OFF MUCH INDEBTEDNESS

By RICHARD C. WILSON United Press Staff Correspondent

Lincoln, Neb., Nov. 13.—The farmer of the great American corn belt is not showing great alarm over the "impending corn crisis" feared in eastern financial circles.

While not yet prosperous, the farmers of the corn belt fear no great financial losses from 60 cents corn, which is expected shortly, Samuel A. McKelvie, farm journal publisher and widely known agricultural expert, declared in an exclusive interview with the United Press today.

McKelvie, former governor of Nebraska, emphatically repudiated reports received by him from eastern newspapers that the decline in the price of corn is causing an alarming increase in the number of bank failures in the corn belt.

"There have been numerous bank failures in Iowa, South Dakota and other states during the past month," McKelvie said. "However, these cannot be attributed to worthless farm securities."

"Banks in the corn belt are just recovering from an era of mismanagement. It is a wonder to me that even more have not collapsed."

To substantiate the agriculturist's viewpoint the United Press obtained the opinion of S. H. Burnham, president of the First National Bank of Lincoln. For years Burnham has been an advisor to Nebraska farmers.

"Farmers throughout the corn belt are paying off more of their indebtedness this year than since 1920," Burnham vouched. "I cannot see how it is possible to call the present outlook a crisis."

McKelvie pointed out that if corn prices slump, the farmers, most of whom are diversified farmers, will feed cattle corn over a longer period than if corn prices remained at a high level.

"Banks in Iowa and Nebraska have reported fewer farm loans this fall than in the past five years and recently Omaha banks announced they held an abundance of money to loan to Iowa and Nebraska farmers," McKelvie said.

SHORTS SCRAMBLED TO COVER

New York, Nov. 13.—Wall street had no grounds for complaint regarding the market's response to the continuance of the New York bank rate at 3 1/2 per cent. With the fear of an increase removed, shorts scrambled to cover and fresh buying made its appearance on an enormous scale resulting in trading at rapidly rising prices, practically as heavy as the volume which accompanied Tuesday's drastic decline.

Speculative enthusiasm was revived by the development of aggressive buy-

ing activities in the standard rails. With many important dividend increases in prospect representative issues of this class were in urgent demand. Atlantic Coast Line soared sensationally, attaining the highest level on record while New York Central reached its best price since 1919 and B. & O. sold at best figures reached since the early days of the war.

The market closed higher.

TRANSACTIONS EXCEED 3,000,000 SHARES

New York, Nov. 13.—(UP)—For the second time this year transactions on the New York Stock exchange exceeded the 3,000,000 shares mark when transactions today totalled 3,958,900. It was the fifth time in the history of the exchange that such a mark was attained. The mark was attained today when a heavy flood of buying orders followed the restoration of the public's confidence in the credit situation, aided by a number of fresh orders.

Valuable Discovery

Stearine (from stear, suet) is that part of oils and fats which is solid at common temperature. The nature of these substances was first made known by Chevreul in 1823, who showed that they were compounds of peculiar acids with a base termed glycerine.

AMUSEMENTS

"Desert Flower" Sees "Sally" Film Colleen Moore, First National star, while convalescing in her beautiful home in Los Angeles from injuries sustained while filming scenes for "The Desert Flower" on location,

Colleen Moore in "The Desert Flower"

viewed the first showing ever made of the completed production of "Sally," her previous vehicle. Miss Moore injured several vertebrae and neck tendons in falling from a speeding handcar used in "The Desert Flower," which will be

shown at the Lyceum theatre next Sunday and Monday.

Harold Lloyd in "The Freshman" at New Park

When Harold appeared at his own party in his brand new Tuxedo, hot off the tailor's pressing board, all was not seemed as it seemed to be! Due to the peculiar dizzy spells with which the college tailor was afflicted, Harold was forced to attend the Fall Frolic in a \$38.50 tuxedo that was only basted to gether. And any home dressmaker can tell you that basting is a form of sewing not to be boasted about!

The strain Harold put upon his basted suit, the efforts of the tailor to keep him sewed into his clothes, and Harold's efforts to avoid detection and keep away from the co-ed flappers long enough to get a few stitches in time to prevent a social error supply some of the fun for "The Freshman," Harold Lloyd's newest comedy feature showing at the New Park tonight, Saturday and Sunday.
